

# DULUTH

NINTH YEAR.

WEDNESDAY, DECEMBER 9, 1891.

FIVE O'CLOCK EDITION.

THREE CENTS

A Duluth Clothing House, Solely Owned and Controlled by Duluth Men. ESTABLISHED 1881.

Store Open Every Evening Till 8 O'clock; Saturday Evenings Till 10:30 P. M. Until Christmas.

MANY good people think all boys are alike. Many buyers think all Boys' Clothing is alike. But they don't buy diamonds that way, nor even eye-glasses or celery. We expect as much fairness for our Boys' Clothing. It's the good particulars that make the good clothing. Those who know ours know it's unlike any other make. We're daily gathering in new goods to the counters. Duplicating particular favorite shapes and goods, the first of which appreciative buyers have carried away; putting in new goods that the late season brings,

doing a lively trade day by day, and making it a bright store for every boy who enters it for our Clothing. 'Tisn't the same sort. The style—something—is better. We always manage to have our Boys' Clothing different and better.

By the time you read this we'll have in another lot of those Storm Coats you've been asking for. We've repeated and repeated them and we intend to keep on repeating them.

Peculiar advertising methods—our own. We have goods to sell and use other means besides newspapers to let you know it. A boy with a beautiful Suit or Overcoat that cost him a dollar or two less than a purchase elsewhere and a pair of splendid Club Skates that doesn't cost him anything, is an advertisement for us. So is a Watch. So is a Clock.

The President Sends His Third Annual Message to Congress and to the Country

He Finds the People Prosperous and our Foreign Relations Peacefully Inclined.

A Brief and Breezy Document That Will Repay Perusal By One and All.

WASHINGTON, Dec. 9.—After the formal opening of the two houses at noon today, copies of the President's message were read in both houses. It is as follows:

Reports of heads of several executive departments received by law to be submitted to me, which I have read with interest and respect. Secretary of Treasury and Attorney General have submitted to me a report of the view of administrative work of last fiscal year and of the work of the Treasury and the Department of Justice. I have read these reports with interest and respect. I have also read the report of the Secretary of the Interior, which contains a full and complete statement of the work of that department during the year.

Work of state department during the year has been characterized by unusual number of important negotiations and by diplomatic results of great value to the country. silver under existing conditions would disastrously affect our business interests at home and abroad. Producers of silver are entitled to just consideration for their product, but it is not the duty of the government to buy and put out of the market what is equivalent to the product of our silver mines. It is more than they themselves thought of asking two years ago. I believe it is the earnest desire of a great majority of the people, as it is mine, that full coinage should be made of silver just as soon as the cooperation of other nations can be secured and ratio fixed that will give circulation.

Equally to Gold and Silver. The business of the world requires the use of both metals, but I do not see any prospect of gold, but much of loss, by giving up the present system in which full use is made of gold and the large use of silver for one in which silver alone will circulate. Such an event would be at once fatal to the progress of the silver movement. Bimetallism is desired, and true bimetallism will be careful not to overvalue their gold and bring in silver monometallism, with the necessary attendant loss of our gold to Europe. There is, however, a growing sentiment in Europe in favor of the larger use of silver and I know of no more effective way of promoting this sentiment than by the accumulation of gold here. Scarcity of gold in European reserves will be a most persuasive argument for the use of silver.

The presence of a large cash surplus in the treasury has for many years been a subject of unfavorable criticism and furnished argument for the desirability of placing the tariff upon purely revenue basis. It was agreed by all that the withdrawal from circulation of the large amount of money was an embarrassment to the business of the country and that it was necessary for the government to take steps to reduce the surplus. The policy of applying this surplus to the redemption of interest-bearing securities was thought to be preferable to depositing it without interest in the treasury. There have been redeemed since that date of interest-bearing securities to the amount of \$1,848,883. Money which had been deposited in the treasury without interest has been gradually withdrawn and used in the redemption of bonds. The result of the policy of applying this surplus to the redemption of interest-bearing securities is the refunding of 4 1/2 per cent bonds has been a reduction of the annual interest charge of \$1,848,883.

## FIVE GIRLS BURNED

Horrible Death Trap in Which Five Girls and One Man are Cremated Alive.

Cut off From Retreat They are Forced to the Top of a Burning Building.

All Efforts to Save Them are in Vain, Their Cries Cease and They are Dead.

LOUISVILLE, Dec. 9.—Six lives were lost in the disastrous fire at the candy and fireworks factory of Menace & Co., 517 West Main street, at 8 o'clock this morning. The horrors of last night's conflagration were more than duplicated. The tomb of fire in which five young girls and one man were burned to death in a 4-story building on the north side of the street. The firm was getting ready for the Christmas trade and employed a number of girls to wrap and pack confections. They were all at work on the fourth floor. The names of the victims are:

Charles Kimble, foreman, 30 years of age, unmarried; Barbara Bell, Clara Rauch, Ida Aarker, Anna Lockhart, Anna Dickey. Those injured were: Lillie Greenleaf, cut on the side of her head, bruised about the body; Kate McGarvey, severely and perhaps fatally injured internally; George King, bruised and burned about the face and hands. The origin of the fire is unknown.

At 8 o'clock there was a tremendous explosion from the second floor. There was a crash of glass and thousands of fire crackers roared and cracked, while almost countless sky rockets and Roman candles flew hissing higher and higher across the street and into the air. A moment later a sheet of flame burst from the windows. Before the employees knew of their danger the ceilings burst and the panic-stricken people ran to the stairways. Three of them, Lillie Greenleaf, Tracy Nollans and Kate McGarvey, reached the third floor just as the stairs leading to the fourth floor caught fire. Behind them came the five other girls, but before they could reach the bottom a wall of fire cut off their progress and they fled back to the top. Fifteen or twenty brave men rushed into the building at one time endeavoring to rescue them, but were driven back by the fierce heat. The cries of the imprisoned girls finally ceased and the doors fell one after another till finally nothing was left of the building but the tottering walls. In the rear were assembled the mothers and fathers of some of the girls who were burned to death inside, and their manifestations of grief were pitiable beyond expression. They implored the firemen to save their children, and only with great trouble were some of the more frenzied ones kept from rushing into the flames.

Another Louisville Fire. LOUISVILLE, Ky., Dec. 9.—Fire last night destroyed the block of buildings on the north side of Main street between Fifth and Seventh. The loss will not far short of \$100,000. The firemen, Capt. John A. Weeney and Thos. Moore, who were in the building when an explosion occurred, are missing and are supposed to have perished. The report has just come in that four more firemen were killed by a falling wall. They are: Silvester Doyle, Tom Moore, Will Davis and Baker.

Wisconsin T. W. Affire. ST. PAUL, Dec. 9.—The town of New Richmond, Wis., on the Chicago & Northwestern road, is in a blaze and may be wiped out of existence. At midnight the mayor telegraphed for assistance and a fire company was at once sent out. A high wind, it is said, was raging, and the telegraph wires were down. The entire town would be consumed. No further particulars are obtainable at present. New Richmond is at the crossing of the Omaha and Wisconsin Central roads, in St. Croix county, and 36 miles east of St. Paul. It is a flourishing little city of about 3000 people.

Hotel Burned. WAUKESHA, Wis., Dec. 9.—The American hotel, a popular hotel here, was destroyed by fire at 11 o'clock this morning. All the guests escaped without injury. Loss, \$12,000; insured.

Cleveland Theater Gone. CLEVELAND, Dec. 9.—H. R. Jacob's Cleveland theater was destroyed by fire this morning entailing a loss of about \$75,000. Kennedy's "White Slave" company suffers a loss of about \$10,000.

## NO BRIDGE POSSIBLE

No likelihood of a bridge between Superior and West Duluth for a year or two yet at the least.

The War Department Would Require Stringent Regulations, and Wisconsin Statutes Must be Changed.

Kakina Iron Company Electric Officers, Leads Lands, and Pits Men at Work Close Beside the Mountain Iron.

The project for a foot and wagon bridge between West Duluth and West Superior has reached such a stage that officials of both towns are beginning to look into the matter. On inspection they find they have put their feet, collectively and individually, into a hole from which extraction will be ungraceful. Probably, however, in Duluth, Superior and West Duluth have made an unwise and costly beginning.

A prominent United States official talking of the matter. "The bridge builders seem to forget several things that are necessary preliminaries. In the first place, the St. Louis river is a navigable stream, meandered, and under control of the government. No bridge can be built there without the consent of the war department and congress, or rather of congress and the war department, as the latter has final say. Now there are built, authorized, four bridges across the river and another is probable across the canal. It isn't going to be an easy thing to get the department to allow another without stringent regulations. I understand West Superior wants to build close to and parallel with the St. Paul & Duluth railway bridge. Before that location can be allowed some very expensive and tedious work must be done about the St. Paul & Duluth bridge to get it in the way originally ordered, a channel draw bridge. Then the statutes of the state of Wisconsin as well as the charter of Superior forbid the building of any such bridge. These would be by necessity be changed, and that will take time. Superior, too, would probably have to get legislative authority to raise money for such a bridge. West Duluth certainly must do this for it has no fund at disposal, and the Minnesota legislature does not meet till 1918. Soon after that West Duluth becomes a part of the city proper and a local location for a bridge may be advisable."

Said a West Duluth official: "We want to build a bridge, for we feel that it will help us. Perhaps we will be obliged to wait. We didn't know it. Superior didn't know it for it has ordered the city engineer to make a complete survey and estimate and he is now doing so. We believe Duluth will not oppose so far as the legal requirements are carried out."

## EXPLORING THE KAKINA.

A crew developing a property just north of the Mountain Iron. Messrs. Grant and Fisher, of the new Kakina Iron company, left yesterday afternoon to visit the company's property and incidentally to look over the Mountain Iron, Biwabie and other properties, to which Mr. Grant will probably build a railway. A force of 10 men is now at work at the Kakina developing and sinking pits, and will be kept there all winter. Developments are so far excellent.

The Kakina holds a lease from the Cluett Lumber company to the west 1/2 of 35-37-18, 320 acres lying just north of and adjoining the property of the Mountain Iron company and about seven miles west of the Biwabie, on the same range. It has a capital stock of \$1,000,000 and its stockholders are D. H. Merritt, Donald Grant, W. H. Fisher, B. Murphy, R. K. Knebel and Frank Werle. Its officers are D. H. Merritt, president; Donald Grant, vice-president; B. Murphy, treasurer, and Frank Werle, secretary.

The Grasshopper Cantata. The program of a musical entertainment to be given this evening at the Saturday club rooms, a commitment to the Saturday club, under the guidance of Mrs. S. M. Stocker, is as follows: Part I is a piano recital, in which take part Mrs. H. D. Pearson, Mrs. Towne, Mrs. E. D. Woodbridge, Misses Ames, Bull, Edna Harris, Ruth Markell, Russell, D. L. Woodbridge, and Mrs. S. M. Stocker. Part II is a cantata, in which take part Mrs. S. M. Stocker, Mrs. H. D. Pearson, Mrs. Towne, Mrs. E. D. Woodbridge, Misses Ames, Bull, Edna Harris, Ruth Markell, Russell, D. L. Woodbridge, and Mrs. S. M. Stocker. A choral finale will be sung by Mesdames Sherwin, Moore, McMann, Harris, Chapman, Spencer, Segor, Rolchke, Pearson, Bowman, Misses Lehland, Moody, Rice, Barker, Brown, Loudon, Holden, Cullyford, Nicol, Messrs. Noyes, Smith, Clow, Johnson, McLeod, Quillhard, Burrell and others.

NEWS FROM MORNING PAPERS.

The Knights of Pythias have rented five handsome rooms in the Lyceum building on the third floor which they will use for lodge and club rooms. They will be occupied by the Agate, Zenith, Synthesis and Gate City lodges.

The Knights of the Macabees held the following election Monday night: George Cox, P. C.; S. J. Hartley, Com.; Joseph Finney, L. C.; F. L. Egan, R. K.; J. H. McFadden, T. H.; J. Henry, chaplain; S. A. Enfield, S. A.; J. Freeland, M. A.; A. Beauchamp, F. G.; D. Kay, S. M. G.; J. A. Drouillard, sentinel; W. J. Coban, picket.

The News says that Nat Goodwin, the actor, is in town, devoting half a column to the item.

E. O. Sharpe, pastor of the christian church, completed his first year's work in Duluth last Sunday. The church membership has been increased from 102 to 115 and a large sum has been raised in the various departments of work.

Wild Bears in Superior. Paul H. Wood, of Duluth, lives just now on a claim in the celebrated Simnash tract in the city limits of Superior, and about half way between the center of South Superior and West Superior. A few days ago a bear came to his back door and in his attempts to be neighborly tore off the wire work of the screen and otherwise showed a disposition to be

friendly. The land Mr. Wood is living on is the northwest 1/4 of 35-40-14, and is valued for city tax purposes at about \$10,000 an acre.

A Central Canal. The Canadian club of Superior at its next meeting will debate on the advisability of cutting a central canal. The question is:

Resolved, That it is for the benefit of Wisconsin and Minnesota that a central canal be cut through what is known as Minnesota Point.

Considerable interest attaches to the debate not only among the members of the club, but among Superior men in general. Duluth also would be pleased to note the feeling over there.

Trimble Purchases 3300 Acres. Several deals have been made in iron lands in the Western Mesaba during the past few days, but in most of them the cash has not yet changed hands. Among the purchases by A. J. Trimble, of the Westworths, of 2200 acres in 18-17.

The Real Estate Exchange. The committee on permanent organization of the real estate exchange has adopted a constitution and by-laws, which they submitted to the meeting this evening. The meeting has been a very successful one and will result in much good to the league.

Born. Yesterday to Mr. and Mrs. Ed. E. Berg, of Lakeland, a son.

For fine Christmas presents go to Boyce's drug store corner Fourth avenue west and Superior street.

A Prevention For Cold. Is to cool and purchase a suit of your nice warm underwear at such popular prices as \$1.50, \$2.00, \$3.00, \$4.00, \$5.00 up to \$7.00 per suit. Don't purchase till you have seen our immense line.

Big Christmas Turkey. And then a trip via the popular Wisconsin Central line to the South is the proper program. Low winter rates, quick time and few changes. Sleeping car berths reserved through by telegram. For tickets, etc., call on or write.

Take a Week Off. The promise of the springtime, in this Northwest has been gloriously reduced in the harvest of the early autumn. Weant exceeded even the expectations of the man who has farm lands to sell. The European crops were great failures. The Northwestern farmer has been feeling pretty well. Have you had a share of this prosperity, or are you like the hoop on a barrel—not in it? If you are one of the lucky ones, why not take a few weeks off this winter, and make a visit to the old home, or trip to Florida, Louisiana, California or Mexico? Nothing will do so much to enliven a man and furnish him with a supply of amusing and happy remembrances as a journey, especially to countries different from his own. To the American, Mexico is a revelation in productions, climate, customs, and the evidences of a former high civilization, so old that the distance of Columbus would be an event of yesterday in comparison. To start right on any such trip, call on the nearest agent of the Burlington, for tickets and information, or address W. J. C. Kenyon, Gen. Pass. Agent, C. & N. R. R., St. Paul, Minn.

NOTICE. STATE OF MINNESOTA. In County of St. Louis, ss. District Court, Eleventh Judicial District.

In the matter of the assignment of A. C. Olson & M. G. Olson, co-partners as Coles & Gittelson, of Duluth, in said county and state, have by deed in writing dated November 20th, 1917, made a general assignment to the undersigned of all their property and estate not by law exempt from levy and sale on execution, for the equal benefit of all their creditors, without preference.

All claims must be verified and presented to the undersigned for allowance. Dated December 2nd, 1917. FRED L. HYAN, Assignee, 202 Lake Avenue south.

TENKHAM & TENKHAM, and J. H. POTTER, Attorneys for Assignee, Incubator block, Duluth, Minn.

MORTGAGE FORECLOSURE SALE. Default having been made in the payment of the sum of two hundred fifty and 00/100 (\$250.00) dollars, which is claimed to be due at the date of this notice upon a certain mortgage, duly executed and delivered by John Hendrickson, son and Etta Hendrickson, his wife, mortgagees, to Charles E. Mendenhall, as trustee, in and for the county of St. Louis and state of Minnesota, on the 24th day of June, 1917, and for the county of St. Louis and state of Minnesota, on the 24th day of June, 1917, at 10 o'clock a. m. in book 60 of mortgages, on page 71, which said mortgage, bearing date the 24th day of June, 1917, was duly assigned by said William McKinley, mortgagee, to Charles E. ## AS TO CITY POLITICS

Mayor Davis Would Rather Run Once More Than See Old Style Policies Prevail in the Municipality.

But He Reiterates the Statement That, Under Ordinary Circumstances, He is Now Out of the Field.

City Judge Morris Believes His Record Will Carry Him Into His Seat for a Second Term.

Mayor Davis was a little disgusted this morning when he learned that the Tribune claimed that he had consented to address a colored men's meeting on municipal politics and that he was really in the swim for a second term.

"There is not a word of truth in it," said the mayor. "I have no intention of making any speeches, have not been asked by anyone to make a speech and don't want to run for another term. I can tell you one thing, however, that I want to see the next administration carry out a policy similar to the one I have inaugurated. If the people put up a maxonville candidate who will follow in that line I shall be most happy to work for him."

"For the good of my own interests I ought not to have anything to do with the government of the city, but if a reform candidate is not put up I shall probably run again."

Judge Morris said it was true that he was going to run again, but he had not been doing any campaigning and didn't intend to do much. He was going to allow his services to speak for him. He believed the attorneys and the citizens as a whole had been pleased with him and on the strength of that he would run again. "I don't believe Judge Stearns has resigned," said Mr. Morris, "but if he should I don't believe that the governor ought to appoint a democrat in his place and thus put the democrats on an even footing with the republicans when the former are greatly outnumbered. We were willing to give the democrats a judge had the district secured three judges from the legislature, but it is too much for them to ask for one when there are only two appointments. If Judge Stearns should withdraw I would like to have my name considered for the place."

"By the way," said the judge, "the Tribune is going a little too far out of the way in hitting the mayor. It is not as if he had run there's no easier way than to poke at him and if he does he can poll lots of votes. Mayor Davis has made too many friends during his term to be easily knocked out in another campaign. I have watched his course during the two years very closely and I must say that he has given us a very clean and a very able administration. Many who voted against him two years ago would vote for him today."

## A GOOD IDEA.

City Engineer Looking at All Phases of the Water Question.

City Engineer Keating and D. A. Reed departed this morning for Grand Lake to examine it and obtain data as to the quality and depth of the water and the feasibility of supplying the people on the hill with water from it.

This step is taken in accordance with the resolution passed by the council a week and a half ago authorizing the city engineer to obtain data during the winter in regard to supplying the city, and especially the upper portion, with water.

The Oddfellows' Annual.

Amid the expected trouble over the conflict of dates of the Oddfellows' grand lodge, which meets in Duluth June 7, and the national republican convention, Grand Master Johnson writes: "The date of the lodge meeting cannot be changed, neither can the place unless on command of the grand master for good cause. I am of the opinion that the republican convention will not get to work before Thursday, and as we will be through by that time, we can attend both the grand lodge and the convention."

The Clerks' Free Meeting.

The first open meeting of the Retail Clerks' union will be held this evening in Temple opera. Besides the program there will be remarks by Bishop McGolrick, Rev. E. M. Noyes and Rev. W. M. Barker. The program includes a number of recitations and musical selections. The meeting is free to all. Tomorrow, who will speak on "Object of the Clerks' Union," is president of the National Association of Retail Clerks.

State Delegates.

Governor Merriam has just appointed the following state delegates for the Detroit waterways convention: J. J. Hill, St. Paul; C. A. Pillsbury, Minneapolis; S. F. Johnson, Red Wing; F. B. Daugherty, Duluth; Earl Youmans, Winona.

The Water Power Company.

The water power people met today and adjourned till tomorrow, when they will elect a successor to Mr. Emery. Messrs. Houtz and Butler, of Philadelphia, representing the Cooke interests, are here and are this evening looking over the company's property at Thompson.

Capt. Barker Indicted.

It comes from good authority that five indictments have been found by a United States grand jury against Capt. C. S. Barker for dumping mail from the channel of St. Louis river. It is believed that he is now in Madison, Wis., to give bail for his appearance at the trial.

The Iron River Brownstone company has 50 cars of stone here which will be shipped in the next few days.

The Cliff Dwellers' hop will be on Wednesday, Dec. 16, and not tonight as previously stated in The Herald.

The Lake Michigan and Lake Superior Transit company carried over 8000 passengers during the season just closed.

The big tug Bennett, which has been pulling rafts for the Cranberry Lumber company all season, was laid up for the winter yesterday at Gray's mill.

The Sheridan Iron company has filed articles. Its headquarters are at Cleveland with offices at Duluth. Capital stock, \$100,000. Maximum liabilities, \$100,000.

Joe, a big bay horse used on hook and ladder truck No. 1 and one of the best horses in the fire department, died last night from a complaint of only two days' duration.

The Old Settlers' association for the head of the lakes held their semi-annual reunion at Superior. Exercises began this afternoon with a banquet at the Euclid.

The directors of the New Duluth Land company met last night and re-elected the old officers. It was decided to declare a semi-annual dividend of 4 per cent some time in January.

The entertainment for the Saturday club will take place at 7:30 sharp this evening at the Saturday club rooms. Friends of the club and performers are cordially invited to attend.

The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street: 12 m., 33; 3 p. m., 36; 6 p. m., 37; 9 p. m., 38; 7 a. m., 33; 9 a. m., 35; 12 m., 35; Maximum, 39; minimum, 32; daily range, 7.

The arrest of Stevens for dumping a scow in the channel of St. Louis river has brought out the fact that the last congress passed a law making it a grave offense to dump scows anywhere in the harbor. All material must now be dumped out in the lake, and dredging is thereby made more expensive.

Another Duluth man will probably be jerked up very soon by the strong arm of the law for recent offenses.

The park commissioners will hold a meeting tonight at which it is expected that some warm talk will be had. The point at issue is the charge made by Messrs. Logie, Holliday and McLachlin for services in appraising the values of property to be taken for park purposes.

The commissioners think that the appraisers ought to cut their figure down and the dentists and the appraisers are just as strongly of the opinion that the city should pay them a good sum.

Nat Goodwin, was said by a morning paper to be in Duluth and was described by it as having "altered considerably in appearance. His recent domestic trouble has wrought great changes. The former happy hale-fellow-well-met expression has disappeared. His cheeks are hollow and there is a sad expression of countenance, which speaks louder than words. He has grown a heavy moustache, which changes him wonderfully." The reason he is changed and didn't appear to recognize the reporter is because it was some other man.

Nat himself is playing in Chicago.

## THE MARKETS.

Wheat Was Easier and Much Weaker, But News Very Bullish.

There was an easier feeling in the wheat market this morning. The demand was small and cables were all easy. The early weakness was soon passed, however, and period of great strength ensued. Corn in New York and Chicago was very bullish. Reports of damage to the growing Russian crops came in. Bradstreet's report showed a decrease of wheat stocks on both sides of the Rockies of \$13,200 bus. Duluth and Minneapolis together had only 405 cars. Clearances from the seaboard ports were equal to 481,000 bu wheat.

The Lake Michigan and Lake Superior Transit company carried over 8000 passengers during the season just closed.

The big tug Bennett, which has been pulling rafts for the Cranberry Lumber company all season, was laid up for the winter yesterday at Gray's mill.

The Sheridan Iron company has filed articles. Its headquarters are at Cleveland with offices at Duluth. Capital stock, \$100,000. Maximum liabilities, \$100,000.

Joe, a big bay horse used on hook and ladder truck No. 1 and one of the best horses in the fire department, died last night from a complaint of only two days' duration.

The Old Settlers' association for the head of the lakes held their semi-annual reunion at Superior. Exercises began this afternoon with a banquet at the Euclid.

The directors of the New Duluth Land company met last night and re-elected the old officers. It was decided to declare a semi-annual dividend of 4 per cent some time in January.

The entertainment for the Saturday club will take place at 7:30 sharp this evening at the Saturday club rooms. Friends of the club and performers are cordially invited to attend.

The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street: 12 m., 33; 3 p. m., 36; 6 p. m., 37; 9 p. m., 38; 7 a. m., 33; 9 a. m., 35; 12 m., 35; Maximum, 39; minimum, 32; daily range, 7.

The arrest of Stevens for dumping a scow in the channel of St. Louis river has brought out the fact that the last congress passed a law making it a grave offense to dump scows anywhere in the harbor. All material must now be dumped out in the lake, and dredging is thereby made more expensive.

Another Duluth man will probably be jerked up very soon by the strong arm of the law for recent offenses.

The park commissioners will hold a meeting tonight at which it is expected that some warm talk will be had. The point at issue is the charge made by Messrs. Logie, Holliday and McLachlin for services in appraising the values of property to be taken for park purposes.

The commissioners think that the appraisers ought to cut their figure down and the dentists and the appraisers are just as strongly of the opinion that the city should pay them a good sum.

Nat Goodwin, was said by a morning paper to be in Duluth and was described by it as having "altered considerably in appearance. His recent domestic trouble has wrought great changes. The former happy hale-fellow-well-met expression has disappeared. His cheeks are hollow and there is a sad expression of countenance, which speaks louder than words. He has grown a heavy moustache, which changes him wonderfully." The reason he is changed and didn't appear to recognize the reporter is because it was some other man.

Nat himself is playing in Chicago.

## PRESS OPINIONS.

What the Leading Papers of the Country Have to Say of the President's Message.

Some Say it is Like the Speaker of the House, While Others Deem it Weak and Dull.

A Few Think it Short and to the Point, as Many More Say 'Tis Long and Out of Joint.

NEW YORK, Dec. 10.—All of the morning papers have liberal comments on the President's message, the tone of which is generally favorable to expressions and recommendations contained therein. The Herald says the message is a straightforward document which gives us a clear photographic view of the events which have absorbed the country's attention during the last twelve months. The prominent topics discussed are very naturally those suggested by our foreign relations. On the whole, it is a very interesting document in spite of the fact that we cannot always agree with its conclusions and might take issue with many of its statements.

The Times says the message is decidedly a more respectable paper than those that have gone before it. Its tone is dignified, its arrangement clear and business-like, most of its recommendations are conservative and sensible and some of them are timely and sound.

The Sun says the leading topics of the message are foreign affairs and the finances. What it has to say of Chile is of grave importance. There is no mistaking the language which shows light on the recent movements of our warships.

The Recorder says the message is American throughout. It is the first and comprehensive statement of an executive well informed as to the relations of our country with others and always just regarding them, but who considers every topic, first of all, with absolute devotion to the interests of the people of the United States and particularly of the great mass of the population who are wage-earners. The document cannot fail to increase the respect of the world for American people and institutions and the firmness and dignity with which they are considered.

The World confines its comments on the message to that portion of the document in which the President refers to the new system adopted by Michigan in electing presidential electors and says he is animated by the old federalist spirit and hunger for federal control in state affairs. Federalism is a term of local self-government, the World adds, has already gone dangerously far, and the further it goes, the more it shows the hostility of principle and prudence, not merely of partisanship.

The Chicago Press. Tribune (rep.): The message as a whole is plain, practical and business-like, and covers the whole field of public interests. In this respect, it is usually differs from the didactic, rhetorical and moral effusions of his predecessors.

Times (dem.): President Harrison pursues the old form. He commences with the department of state and the relations of the republic with the rest of the world, and having, through the secretary's spectacles, "surveyed mankind from China to Peru," takes up each department in its turn and consigns to the congressional dead letter office whole volumes of information and recommendations. Save for a vision of a cabinet separating the verb and the sign of the bill, the President, aided by his secretaries, writes easily and correctly.

News (ind.): As a straightforward business document, couched in dignified and terse language, President Harrison's message is one of the most satisfactory and comprehensive of recent years.

Globe (dem.): The message lacks vigor, spirit, energy. It is lukewarm, except when advocating aid to a private snap or in commending some government official's work and the McKinley law.

Herald (dem.): The message, unlike the soul of wit, is long, and, unlike charity, it begins abroad, according to the immortal custom. Beginning with the stars there to the limit of four columns, or not much less than one-half the entire length of the document, roaming all the way from Russia to Hawaii, to the portion of the message relating to tariff and finance is singularly weak.

Inter-Ocean (rep.): President Harrison's annual message conforms admirably to the general purpose of such a document. It is a resume of the year from the standpoint of the United States government in all its departments and leading bureaus, beginning with foreign affairs.

The Message in Chile. VALPARAISO, Chile, Dec. 10.—President Harrison's statement of the Chilean affair is a subject of universal comment here today. It is regarded by the Chileans as decidedly menacing a rupture between the two countries as it is not believed that the Chilean government will consent either to an apology or any material indemnity. The majority in congress is known to be opposed to any concession and the Chilean government even though possessed of great influence would find it difficult to carry the necessary support of any humiliating measures.

Christians Massacred in Riots That May Prove a Revolution. Foo Chow, Dec. 10.—Telegrams some time ago brought news of the disturbance which had originated in Tekhwa in consequence of the increase of the salt tax. The authorities have had to send troops to the spot and 1000 more men were dispatched. It is reported that the riot had extended to two other districts, Tzegebu and Yowki, and that the authorities did not succeed at once in suppressing the tumult, nothing can prevent the movement from assuming a formidable character, very likely ending in a big rebellion.

A dispatch from Tien-Tsin says: Some Christians have been massacred near Pakouscib by banditti and an undisciplined mob. The commander, who conspired at the massacre, has committed suicide. A magistrate implicated in the affair has been arrested and committed for trial.

## GERMAN BANK FAILURE.

Another of the "Hithertos" Gathers Gold. Galtore and Gies. BERLIN, Dec. 10.—The German world of finance was startled today by another crash among its monied institutions and by the discovery that another hitherto highly respected, admired and envied financier had been embezzling money for a long time past. In this latest revelation of fraud, Adolph Albert, a prominent banker of Maritz, in Prussian Silesia, has been declared a bankrupt and an examination into his affairs shows a very poor outlook for his creditors. The banking house at the head of which was Herr Adolph Albert, was composed of himself and his brother Marcus, and from present appearances Adolph, at least, has been defrauding his clients for a long time past. He is said to have embezzled over 2,000,000 marks, including one deposit of 788,000 marks. Albert has left for parts unknown, but he is believed to be on his way to the United States. Herr Marcus, Adolph's brother, is believed to be implicated in the embezzlements and has been placed under arrest.

## GRANT'S REMAINS.

Plumb Will Try to Have Them Rest at Washington, Dec. 10.—The removal of the remains of Gen. Grant from New York to the national cemetery of Arlington will be proposed again during the present session by Senator Plumb, who will introduce, at an early date, a concurrent resolution providing for the removal of the remains and to ask that the remains be laid to rest in the national cemetery. He will not ask that the remains be laid to rest in the national cemetery, but will refer to any committee, but will keep it on the table until a favorable occasion for its consideration shall arise. He has no doubt that it will pass by a safe majority as it did before, but he declined to express an opinion as to its fate in the house. It will be likely to encounter there strong opposition from the members as it did in the last congress.

## MAGINNIS FEELS SURE.

The Duluthian Feels Confident St. Paul Will Secure the Party Convention. WASHINGTON, Dec. 10.—[Special to The Herald.]—C. P. Maginnis, of Duluth, left for home at 11:20 this morning. In the party with him were Mayor Winston, Minneapolis, Editor Lewis Baker, St. Paul, National Commissioner, Doran, and others, who come to Washington to do missionary work in the interests of St. Paul for the national democratic convention.

Crashes Through a House. MANCHESTER, N. H., Dec. 10.—A railroad wreck and fire caused the destruction yesterday morning of about \$3000 worth of property here. A special freight train, carrying South Shore & Atlantic broke apart on a heavy grade just west of town. The caboose and freight car, which had been derailed, crashed through two dwellings, the inmates barely escaping with their lives. Mrs. Patrick McCarney, a widow, and her two children, were in the caboose at the time of the crash. The caboose set fire to the wreck, burning both cars and the two houses; partial insurance.

Didn't Know Her Nephew. CELINA, Ohio, Dec. 10.—Mrs. Wentworth, of St. Johns, this county, mentioned yesterday, having discovered that her husband was her nephew, committed suicide at her home yesterday afternoon. Her grief at the thought of a legal separation she could not bear and she resorted to the use of chloroform. As nearly as can be ascertained she took about 50 grains.

Influenza at Australian Grip. SAN FRANCISCO, Dec. 10.—Australian influenza which is similar to grip has made its appearance in California. In Oakland, Alameda and other towns hundreds of cases have been reported. Dr. Colsey's hospital in Oakland all the wards and private rooms are filled with patients. The disease is also prevalent in this city and many deaths are resulting.

No Extra Session Yet. NEW YORK, Dec. 10.—It was seen by a reporter last night Governor Francis of Missouri, said it had not been decided whether he would call an extra session of the legislature of Missouri. He said that there were legal questions which must be settled before he decided upon his course of action.

Ardmore is Much Less. ARDMORE, I. T., Dec. 10.—The greater part of the business section and about 25 dwellings were destroyed by fire here yesterday morning. Losses will aggregate about \$100,000, which there is an insurance of about \$50,000.

Murderers Must Hang. DANVILLE, Va., Dec. 10.—In the corporation court yesterday Jim Lyles and Margaret Dasley, who were convicted of the murder of the woman's husband, and were sentenced to be hanged on Jan. 22.

Lumber Dealers Assail. NEW YORK, Dec. 10.—Messrs. Higgins Bros., wholesale and retail lumber dealers at 108 Eleventh avenue, assigned today to Patrick Moore without preference.

Discount Rate Reduced. LONDON, Dec. 10.—The Bank of England's rate of discount has been reduced from 4 per cent to 3½ per cent.

## CHINESE CRUELITIES.

Probably the finest collection of etchings and engravings that ever came to Duluth is now on exhibition and sale at LaVaque's.

## FROM WASHINGTON

The Senate Begins to Grind With the Hopper Full of Bills for the Relief of All.

The House is not in Session and Speaker Crisp is Busy Forming the Committees.

The Treasury Secretary and Attorney General Add Their Mite to the Literature of the Day.

WASHINGTON, Dec. 10.—The excitement attendant upon the opening of congress is gradually passing away and although it will take some time for Speaker Crisp to arrange the more than three score house committees out of men, a majority of whom are not only new to congress, but also new to him and the party leaders, yet things begin to assume a business-like aspect. The senate being much smaller, and remaining still in charge of a republican majority, finds little to prevent it getting down to work at once. The house is not in session today.

The Senate. In the senate this morning a number of treasury, war department, fish commission and other reports were presented and referred. Also various petitions in favor of closing the Chicago World's fair on Sunday. Mr. Paddock, of Nebraska, re-introduced his pure food bill. Mr. Harris, of Tennessee, introduced a bill to re-establish a national board of health. Bills were also introduced by Mr. Stewart for free coinage of silver (re-introduced) also a new restriction bill, and by Mr. Culom to suspend the coming of Chinese laborers; by Mr. Pasco to punish officers conspiring to select United States jurors because of political or religious opinions; by Mr. Culom for the revocation of the passport of any consul certificates for emigrants; by Mr. Gibson for levee repairs and for constitutional amendment making the presidential term April 20, instead of March 4, and making the president ineligible for a second term; by Mr. Platt of Connecticut amending patent law; by Mr. Sherman to establish department of public health; by Mr. Vest to amend the interstate commerce law; also a joint resolution regarding export trade in cattle; by Mr. Hiscok for the relief of the estate of John Roach in respect to construction of the Dolphin and remitting penalties on the dynamite cruiser Vesuvius; by Mr. Peffer to amend the immigration and naturalization laws to provide a service pension for surviving soldiers of the war, with an additional amount to pension war veterans; to increase the number of pension agents; and to lessen the expenses of examining boards. By Mr. Fiddick, to create a pension and tariff commission; by Mr. Vest, to prohibit monopoly in the transportation of cattle to foreign countries; by Mr. Turpie, for direct vote for presidential electors.

The President transmitted to the senate the appointments made during recess. It was stated at the White House today that the new nominations will probably not be received before next week. The senate after a brief executive session, adjourned till Monday noon.

The Attorney General's Report. In his annual report Attorney General Miller says: "The legislation of the Fifty-first congress in respect to the relief of the supreme court has not afforded such relief; on the contrary the number of cases upon the present docket is larger than ever before. This is accounted for by two causes. First, when it was known that after a fixed time a large class of cases could no longer be brought by writ of error or appeal to that court, special efforts were made to rest cases in that time. Second, the law providing for the circuit court of appeals, authorized the review in the supreme court of any judgment or conviction in criminal cases, and after that act until the passing of the appellate court bill only in capital cases. Naturally, unless the appellate court bill is amended before the close of the time of the consideration of writs of error from judgments of convictions in cases of felony. There seems to be no necessity or, as it seems to me, propriety in the exercise of such jurisdiction by the supreme court. I recommend that the law be amended accordingly." The attorney general also recommends that each district attorney be required to follow and care for the cases from his district in the court of appeals, as he would be most familiar with them.

Abraham Buckner Dead. NEW YORK, Dec. 10.—Abraham Buckner, the dealer in commercial paper who failed on Aug. 3 with liabilities of several millions of dollars, astonishing the country, died in this city today. He was 68 years of age. He brooded over his misfortune and when attacked with illness could not bear the strain.

Maher and Corbett. NEW YORK, Dec. 10.—Peter Maher has signed articles of agreement to finish for \$5000 a side, Queensberry rules, between April 15 and May 15, before any responsible club in the United States that offers the largest purse. The articles await Corbett's signature in the Herald office.

Gen. Lee's Successor. ALEXANDRIA, Va., Dec. 10.—Special election held yesterday in the Eighth congressional district of this state to fill the vacancy caused by the death of Gen. W. H. F. Lee resulted in a victory for the democratic candidate, E. E. Meredith.

The Southeastern Synods. AUGUSTA, Ga., Dec. 10.—It is stated that the board of regents appointed to select a site for the Presbyterian South Atlantic university will report favorably to Augusta. The university will be built by the four southern synods comprising the states of North Carolina, South Carolina, Georgia and Florida, and will cost \$800,000.

Connoisseurs and admirers of art will find a treat in store for them by calling at LaVaque's to see the exhibition of fine etchings and engravings that have just arrived by express.

## TREASURY TALK.

Secretary Foster Reports Much That has Been Told Before. WASHINGTON, Dec. 10.—The government's fiscal operations for the year ending June 30, were given to congress yesterday afternoon by the secretary of the treasury. The report in brief is as follows:

Receipts from all sources, \$458,544,235.00. The expenditures for the same period were \$421,304,470.46, leaving a surplus of \$37,239,764.57. To this sum was added \$13,447,535.48, which was applied to the payment of the public debt. Compared with the preceding fiscal year receipts for 1891 have fallen off \$1,181,817.52. There was an increase in round numbers of \$5,000,000 in postal receipts and \$3,000,000 in internal revenue receipts and a decrease of \$10,000,000 in customs receipts; \$2,500,000 from profits on coinage and \$2,500,000 from sales of public lands. There was a net increase of \$27,656,108 in the ordinary expenses of government. Among the larger items of increase were \$1,038,333 for the census; \$1,398,298 salaries and expenses United States courts; \$1,137,226 for the naval establishment; \$1,810,422 for the Indian service, and \$1,779,000 for pensions.

For the present fiscal year the revenues are estimated at \$433,000,000. The expenditures for the same period are estimated at \$400,000,000. Leaving an estimated surplus for the year of \$24,000,000. Probable condition of the treasury at the close of the present fiscal year, June 30, 1892: Cash in treasury July 1, 1891, including gold reserve \$153,823,808. Surplus for year above, \$24,000,000; deposits during the year for the redemption of national bank notes, \$3,000,000. Total amount available, \$156,823,808. Less redemption of national bank notes during the year, \$16,000,000. Redemption of bonds, interest on bonds and fractional currency to Nov. 1, 1891, \$2,011,163. Redemption of same items during the remainder of year, \$1,254,500. Total, \$1,166,663. Cash balance available June 30, 1892, \$133,525,145. For the fiscal year ending June 30, 1893, the secretary estimates a revenue of \$455,356,350 and expenditures amounting to \$431,000,000, or an estimated surplus of \$14,356,350.

The amount of money in circulation has been very largely increased since the close of the fiscal year. The amount July 1, 1891, was \$1,507,440,507 and the amount per capita \$23.41. The return of gold to the United States, the operation of the silver treasury note act, and disbursements by the treasury on account of the 4½ percent loan, pensions, etc., enlarged the volume on Dec. 1 to \$1,577,262,070, and the per capita amounted to \$24.38.

## FRANCES CLEVELAND ILL.

The Ex-President Much Concerned for Her Personal Welfare.

NEW YORK, Dec. 10.—Ex-President Cleveland is said to be much more concerned about his wife's health than politics, presidential or otherwise. A special from Lake Wood, N. J., where they went recently for her benefit says: Mrs. Cleveland has not, as it was hoped, received real benefit from her stay here. She is in fact hardly as well as when she arrived ten days ago. A trained nurse is still on duty. Mrs. Cleveland takes massage daily and lives almost exclusively on milk and wine. When she and her husband drive out Mrs. Cleveland is muffled in furs, cloth leggings and wraps, and her husband's arm is kept at her back for support. She looks like a ghost, colorless, blue-lipped, hollow-eyed and with sunken cheeks.

## Tommy Ryan Arrested.

CHICAGO, Dec. 10.—Tommy Ryan, of Chicago, the welterweight champion, was arrested Tuesday evening while actively punching a bag in his training quarters at Douglas Park. The officers presented a criminal capias citing that on Aug. 9, Tommy Ryan and Billy McMillan had violated the laws of the state by engaging in a prize fight at Richardson, Ill. The sheriff of Kane county left this afternoon for Geneva with his prisoner. A party of Ryan adherents went with him to induce the judge to release the prisoner on bail.

## A Religious War.

STILLWATER, Minn., Dec. 10.—Protestant clergymen and others in this city are decidedly opposed to the action of the teachers of the Hill public school in closing school Tuesday, a catholic holiday. The Hill school was formerly a parochial school and was a part of the public school system. The teachers employed are all Sisters of Charity. It is said that the schools were closed in opposition to Superintendent Wilson's orders.

## A Lunatic Has Some Fun.

NEW YORK, Dec. 10.—G. S. Stokes, the lunatic, who recently escaped from an insane asylum went to his mother's home in East One Hundred and Eighty Fourth street yesterday and nearly frightened the wits out of the members of the household by his crazy actions. Police tried to arrest him but the man locked and barricaded the doors and defied the efforts of six policemen to capture him. The warrant of the police did not give them authority to break down the doors.

National Bar Association. WASHINGTON, Dec. 10.—Justice Harlan opened last night's session of the National Bar association with an address of welcome, to which Professor Morris responded. Mr. Carter, of New York, responded to the toast, "The Bar," and Senator Gray, of Delaware, to "The Congress."

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Dec.  
10.—Except at Marquette and Sault Ste. Marie  
the weather is clear this morning in all sections.  
The rain of last night was merely local, the only  
other places reporting rain were Marquette and  
Huron. S. D. The temperature remains nearly  
stationary except over Manitoba where a slight  
cold wave has made its appearance, reducing  
the mercury there to zero and slightly below.  
The warmest place is at Chicago, 45; the coldest  
at St. Vincent, 22 at Moorhead and Fort Buford, 25  
at Bismarck and Miles City, 34 at Cheyenne, 38 at  
Cleveland, 42 at Buffalo and 54 at Cincinnati.  
The highest temperature here yesterday was  
40, the lowest last night 32. The total amount of  
rainfall, .04 inch.

## ST. PAUL'S WATER PLANT.

St. Paul owns her water plant, but not  
her gas plant, which she now regrets was  
not bought at the same time with the  
former. The water board met yesterday  
to hear the reports of the secretary, su-  
perintendent, and the engineer of the  
pumping stations, for the year ending  
Nov. 30. The receipts and disburse-  
ments, as shown by Secretary Caulfield's  
report, are as follows:

RECEIPTS.	\$	1891.
Cash on hand Dec. 1, 1890.	120,951	34
General water receipts.	120,951	34
Miscellaneous water receipts.	21,500	93
Connections (street service).	21,500	93
Extensions.	3,016	68
Shutting off and turning on water (penalties).	216	00
Residue.	42	30
Connections (new supply).	42	30
Interest.	58,887	50
Frontage tax.	20,000	00
Bills payable.	582,212	00

GENERAL MAINTENANCE.	\$	1891.
Connections (street service).	21,500	93
Residue.	42	30
Meters.	1,042	52
Extensions.	115,741	81
Construction (new supply).	38,993	07
Interest.	58,887	50
Frontage (tax refunded).	20,000	00
Bills payable.	815,752	43
Balance.	4,749	38

From this it will be seen that the St.  
Paul water plant while charging only \$8  
service for an average dwelling that  
costs \$20 in Duluth, has paid \$15,745.81  
for interest, \$81,604.76 for extensions  
and constructions, \$24,558.82 for service  
connections, and still has a surplus  
plus of \$7,450.38. By an act of the last  
legislature St. Paul pays nothing to the  
water department for fire service, which  
would probably cost the city \$50,000 a  
year if a private company owned the  
plant. Thus with \$107,253.38, besides  
\$4,052.52 for meters, expended in  
enlarging the plant for which the  
city has value received, an interest  
charge of \$15,745.81 has been met,  
\$50,000 of debt paid off, and the  
saints still left with \$7,450.38, or prac-  
tically the same as they had at the be-  
ginning of the year, in their municipal  
jeans.

This, when we consider the rental  
charge, which is among the lowest any-  
where in the country, is a most gratify-  
ing and remarkable showing. Five miles  
and 3500 feet of mains were laid and  
paid for during the year, making a total  
of 108 miles and 462 feet. Sixty-five  
new hydrants were set and paid for, ac-  
cording to the report, making a total of  
1813, and 42 new valves, making a total  
of 1749, were put in. Although the de-  
partment was credited with nothing for  
fire service this year and the city has  
not materially grown, its total  
receipts for 1891 were \$20,647-  
68 over those of 1890. Here  
we see foreshadowed what might be the  
condition in Duluth under an exclusive  
ownership. It shows, too, how steadily  
receipts increase from year to year, even  
though the city is supposed to be at a  
standstill. In a rapidly-growing commu-  
nity center like Duluth, where wealth  
piles up even faster than population can  
get together, the receipts from water  
rents show a much higher rate of in-  
crease, and even though these receipts  
are for a decade or more exhausted in  
paying interest and making extensions,  
the city has a vast saving in the lower  
rental and secures a dollar's worth  
of assets for every dollar it ex-  
pends in laying mains. In the mean-  
time it feels no burden, and when the  
mains are laid the city owns them,  
which is better than paying for them as  
we now and leaving the ownership in  
the hands of a private corporation. St.  
Paul is to be congratulated on her wis-  
dom in purchasing the plant, reducing  
the rents and pocketing the surplus.

The New York board of trade, in its  
meeting yesterday, discussed the silver  
question at much length and passed a  
resolution asking the co-operation of  
European commercial bodies on the  
matter of silver coinage, to the end that  
a uniform law may prevail in all com-  
mercial countries and a fixed ratio be-  
tween gold and silver be established and  
maintained. The report of the execu-  
tive committee opposes any legislation  
that will disturb the value of the cir-  
culating medium, favors the fostering of  
the merchant marine, by congress, urges  
commercial relations with neighboring  
nations, recommends the establishment

of a naval militia, one-cent postage, the  
Torrey bankrupt bill and other less im-  
portant measures. The country seems to  
be waking up on national matters.

## DULUTH FROM LONG RANGE.

Baron Louis A. Von Hoffman, the  
well-known Paris and New York banker,  
also distinguished as the father-in-law  
of the Marquis de Mores whose some-  
what dazzling career is well known  
throughout the Northwest, has confi-  
dence in Duluth. Part of this confidence  
comes from experience, for he is an ex-  
tensive realty owner here, but more from  
the national conditions which he just now  
beholds. Writing to his agent, Col. E.  
A. McNair, under date of Paris, 5 Rue de  
Tilsit, Nov. 27, he says:

The crops of the United States are enormous,  
whilst there is want of food in almost every  
country in Europe; such combinations are ex-  
traordinary and happen very seldom. They  
must bring a great deal of money and pros-  
perity to the Northwest, and I say by the papers  
that Duluth is getting its full share of receipts  
of wheat this far.

The keen financier sees, as all who  
study the situation must see, that the  
present vast grain yield marks an epoch  
in the Northwest, that the farmers have  
turned the corner from the long lane  
of poverty and distress, and that the winter  
of our discontent is made glorious sum-  
mer by this golden crop. After the  
bountiful harvest come the busy build-  
ers, and the next year will see a bigger  
demand for shingles, skylights and door  
knobs than has ever been seen in this  
delightful land. Mortgages are  
paid to the Eastern capitalists, wan-  
ing confidence is restored, and in sixty-  
days money will be coming back looking for a job. Already  
it has heard there is work here for it to  
do—steady employment for a term of  
years—and it is eager to hoard up the 6  
per cent annual accretion while the  
Western speculator may take to himself  
the unearned increment. It will arrive  
in town early in February, presidential  
elections to the contrary notwithstanding.

The Herald from day to day gives its  
readers some idea of what is going on  
around them. Just now as the season  
closes facts relating to the volume of Du-  
luth's business for the year will be read  
with interest. The business of the Sault  
canal was spread before our readers the  
day the last boat passed through, the  
wheat receipts and shipments were given  
the day the last boat was loaded, yester-  
day we put the President's message in  
type while the clerks were reading it to  
congress, and today by way of diversion  
we give a few lumber figures, past and  
prospective. The Herald keeps close to  
the front.

Inasmuch as our friend, Major O'Brien,  
is in Minneapolis, it seems unkind for a  
morning contemporary to represent him  
as busily engaged unweaving the hinges  
from saloon doors in Duluth. But the  
unkindest cut of all is where it says he  
took the doors off and carted them away.  
As the major when in Duluth walks on  
one foot and two crutches, and as he  
was in town yesterday at all, we opine  
that the statement of our esteemed con-  
temporary is in some of its  
material allegations, especially those re-  
lating to lumber, essentially and un-  
scrupulously untrue.

The Drexel Institute of Art, Science  
and Industry will be dedicated in Phila-  
delphia Dec. 17. It is located at the  
corner of Chestnut and Thirty-second  
streets, and is one of the finest buildings  
of the kind in the world, having cost  
\$1,500,000. It is the gift of Mr. A. J.  
Drexel to the cause of learning. In an-  
other decade we may look for Drexel's  
in Duluth.

A dozen or more of our whalebacks  
laden with Duluth wheat have been at-  
tracting much attention in Buffalo, being  
sent a novelty to the outside world. Sev-  
eral of them have gone into winter quar-  
ters at Bisonville.

The Herald was the only Minnesota

## THE EVERETT ROOM.

Prices Very High and the Boom in a  
Collapsible Condition.

The Everett people lost their breath  
when Capt. McDougall arrived among  
them and one of their three papers came  
out with a scream head announcing that  
"McDougall is here." On Monday last  
too many were to be set at work to build  
the new shipyard. Capt. McDougall  
was quoted as saying that within eight  
months he would launch at Everett a  
whaleback of 5000 tons capacity.

The whaleback yard is to be located on  
the Snellomish river about a mile  
from its mouth so as to be in fresh water,  
and the paper pulp mill, of which much  
has been said, is about two miles from  
the town. Several sawmills are being  
built and many building are going up.  
The Everett Land company platted  
about 160 acres in town lots, and other  
parties laid out 1000 acres more. These  
parties sold out all of their lots, which  
have changed hands two or three times  
since, but the land company has not actu-  
ally sold a single lot. It has sought to  
keep out speculators and to encourage  
building. It made a condition that  
every man who bought a lot should build  
on it. In order to enforce this condition  
the land contracts are drawn in twice  
the sum of the actual purchase price, the  
buyer getting a rebate when he builds, and if  
the main streets were laid out 100  
feet wide and the side streets 80 feet.  
The lots were made 25 by 120 feet.  
The company's prices are \$1000 for in-  
dustrial lots and \$1500 for corner lots, and  
double those prices if the purchasers do not  
build. Prices ran up very quickly. The  
boom which the town is experiencing is  
great and is likely to hurt.

Other business is going up. The  
parties sold out all of their lots, which  
have changed hands two or three times

ally sold a single lot. It has sought to  
keep out speculators and to encourage  
building. It made a condition that  
every man who bought a lot should build

MR. HASKINS' APPEAL.

It Brings Out a Carload of Clothing and  
Mrs. A. M. Miller, president of the  
Ladies Relief society, had the following  
communication in a morning paper:

An appeal from Mr. Haskins seems rather a  
redundant, when one considers the  
duty it is to do this very work. Our appeal  
to the public for funds was generally responded to,  
and every case of need reported has been re-  
ligiously and relieved. The plan of establishing  
as it were, another society, will result in im-  
poverishment upon both, which should be guarded  
against. The ladies of the city, who are working in  
the society's room, No. 4 Metropolitan block,  
where many ladies labor every day, and if  
Mr. Haskins and all others knowing of cases of  
distinction will report with us to the president  
of the society, the result will be entirely satis-  
factory.

The communication has created con-  
siderable attention about town and is  
criticized severely. Said a gentleman  
who is deeply interested in charitable  
work: "Mr. Haskins is around among  
the poor people all the time, is most en-  
thusiastic in his work and gets hold of  
many a case of need. He is a man of  
the ladies. I know, help many a case,  
but I don't believe they can begin to find  
cases with Haskins. You can't have too  
many people or societies working in a  
charitable way. There's plenty of room  
for all."

Mr. Haskins told a Herald man yester-  
day that the people had responded nobly  
to his appeal and several large bundles  
and packages had already been sent him  
and also postal cards and letters telling  
him where to call for more. "I think,"  
said he, "that I can easily get a car full  
of clothing and other things for the des-  
titute people I meet."

moved to 125 West Superior street, Far-  
quharson block.

Take a Week Off.  
The promise of the springtime in this  
Northwest has been gloriously redeemed  
in the harvest of the early autumn.  
When exceeded even the expectations  
of the man who has farm lands to sell.  
The European crops were in great part  
failures. The Northwestern farmer has  
been feeling pretty well, and still has a sur-  
plus of his produce, and he is like the  
hoop on a barrel—not in it? If you are  
one of the lucky ones, why not take a  
few weeks of this winter, and go on a  
visit to the old home, or a trip to Florida,  
Louisiana, California or Mexico? Nothing  
will do so much to enliven a man and  
furnish him with a supply of amusing  
and happy remembrances as a journey,  
especially to countries different from his  
own. To the American, Mexico is a re-  
velation, in productions, climate, cus-  
toms, and the evidences of a former  
high civilization, so old that the dis-  
covery of Columbus would be an event

## OLD SETTLERS COMMUNE

They Listened to Many Letters of Prophecy and History From Those Who Were of Necessity Absent.

The Gathering Probably the Most Enjoyable That has Ever Taken Place in the Old Settlers' Ranks.

Officers for the Year Elected and Many Speakers Spoke of Past, Present and Future as Well.

The 12th semi-annual meeting of the Old Settlers association of the Head of Lake Superior was held Wednesday evening, and there were present 500 of the old pioneers and a few young chaps who claim membership by right of relationship. The regular old prehistorians who graced the occasion were Robert Forbes, D. D., Thomas Bardon, John Smith, George R. Stirling, W. W. Wietland, P. M. Ryan, Com. H. Saxton, Ernest Wietland, H. P. Wietland, S. C. McQuade, J. J. Hibbard, Alfred Merritt, Charles C. Salter, C. Foster, D. C. Morison, W. C. Behlen, H. E. Lahtie, W. H. Webb, R. B. McLean, Vincent Ross, George L. F. Slayton, E. R. O'Connell, J. Morisset, A. G. Descent, J. W. Osborne, D. Dean, H. Hayes, August Zachau, C. P. Garrity, J. W. Hacker, S. H. Clough, Superior, N. B. Merritt, Wm. Schuster, John Collins St., H. N. Setzer, I. W. Gates, W. C. Howenstein, Wm. Cranwell, H. W. Wheeler, L. F. Merritt, G. A. Schultze, Charles Lord, Letters of regret at inability to be present were read from half a dozen more.

After the banquet and after officers had been elected as follows—president, H. W. Wheeler, Onondaga; vice-president, August Zachau, Superior; treasurer, D. G. Morison, Superior; corresponding secretary, H. Hibbard, Duluth; ex-committee, S. H. Clough, Superior; N. B. Merritt, Duluth; R. B. McLean, Superior; H. C. Wietland, Duluth, and E. H. Brown, Superior—the speeches were made and the letters of the predecessors read. Judge Nelson, of the post-prandial exercises with a witty speech comparing Superior and Duluth. He was followed by Judge Clough, who explained why people first came to Superior. Lucien F. Merritt, of Onondaga, said that "fine as the speeches of his predecessors have been, not one had the height or breadth or depth of the possibilities of these two cities at the head of the lake." W. W. Spalding, comparing Superior and Duluth to lovers—"two hearts that beat as one, two souls with but a single thought, and that thought, how to beat the world."

Col. Hiram Hayes then read the letters of regret—some of them full of fiction, kindly feeling and great prophecies for the head of the lake. Col. Robertson, of St. Paul, one of the three original pre-emptors of Superior, was too feeble to undertake the journey. Judge Nelson, of the same place, another of the three, was too busy with court matters. Governor Ramsey said: "The growth of Duluth and Superior proves that all things come him who waits." Thomas Bardon, of Ashland, wanted the "old" to fill up. George F. Holcomb, ill at Chesire, Ct., C. D. O'Brien, of St. Paul had other engagements. N. Myrick, St. Paul, is ill, but sent his soul and his song to the old boys. John B. Brisson wrote from Glenwood, Minn., that he has rheumatism, and that "the cities at the head of the lake are a unit, not twins, and though like Jacob and Esau they have to be distinguished by a red rag, they are suckled by the same dam." John O. Sargent, of New York, "would like to be present but couldn't; had paid his taxes for 37 years, and still had the utmost faith in the head of the lake as the site of the largest city ever built in the same space of time." W. H. Folsom, St. Croix Falls, author of "Fifty Years in the Northwest," was too feeble to attend. John C. Sponner was unable to be present but would "not be surprised at any great thing that should happen to the cities of Duluth and Superior."

Ex-Governor W. R. Marshall, St. Paul: "I was on the lake as early as 1848, again in 1857, 1860, and so on down. I have made the trip by canoe and trail, and in winter's snows and summer's heats with fleas and mosquitoes sucking my blood. I have known mostly all the old settlers from Bump, Oakes, Nettleton, Carlton, Ely, Clark, Newton—I cannot name all—and Stuntz. We were government surveyors way back in the '40s. I rejoice in the splendid development that has come to the head of the lake."

E. W. Brunson, St. Paul: "My first visit to the head of the lake dates back to November, 1843, when in company with my father and others, I camped on Minnesota point, near where the light-house now stands, and the following morning, in our bark canoe, skirted the future site of your beautiful city, then a dense forest. My next was in February, 1854, when we made our way through the wilderness with a pony and train load of provisions."

Hiram Robbins, New York: "We have lived to witness the commencement of the great city which is to occupy the surroundings of the head of Lake Superior on a scale of greater magnitude than our early dreams indicated. The largest lake on the globe, lined on its borders with countless resources of mineral and other wealth, and having the longest stretch of cheap water transportation, is destined to have at its head a city of surpassing grandeur."

Ex-Governor Rice, of St. Paul, wrote in the same strain and eulogized the wholeback and its Duluth inventor, Capt. McDougall. "On looking at your history, your wonderful growth and acquisition of mammoth manufactures and other industries, and judging the future by the past, one cannot but believe that your greatness has only begun."

The ladies of the Park Point church will give a concert next Friday evening at 8 o'clock. Everybody is cordially invited to attend.

The tug Record opened the channel to the barge works yesterday afternoon and towed the A. D. Thomson to the yards for repairs on her boiler.

The police are looking for Kit Skinner, formerly of 210 West Superior street, who is believed to have skipped across the bay to keep out of the way of creditors.

The new Superior national bank, which was to start with \$500,000 capital, will actually begin business in January with \$200,000 capital. It is a good thing that it is.

It is claimed that the Lehigh coal dock fire will be extinguished early next week, but that at least 50,000 tons of soft coal, worth \$200,000, will be partially destroyed and all damaged. Over 100 extra men are at work on the fire now.

H. W. Wheeler, of Onondaga, is showing his friends a handsome oak gavel made from timber of the old Algonquin, the first large sailing vessel at this end of Lake Superior, which was given him yesterday by the Old Settlers association.

The directors of the Northwest Land company, owning the townsite of La Prairie, met yesterday and elected Gen. M. D. Flower president and William M. Bushnell, whose financial methods are better known than his whereabouts.

W. T. Bailey was on the stand in the section 30 case this morning and scored a 10-strike for Hyde, whom he has assisted to the extent of \$15,000. His story of how he became interested in the great contest was effectively told.

The following variations in temperature were recorded at the Pioneer Fuel company's office, Hotel St. Louis, 245 Superior street: 12 m., 34°; 3 p. m., 35°; 6 p. m., 34°; 9 p. m., 35°; 7 a. m., 32°; 9 a. m., 32°; 12 m., 35°; Maximum, 36°; minimum, 32°; daily range, 4°.

The board of park commissioners conferred with the appraisers last night in regard to the compensation to be paid the latter and the war time that had been expected did not materialize, as the appraisers agreed to reduce their charges from \$500 each to \$200.

Secretary White, of the chamber of commerce of West Superior, was over today to confer with Mr. Thompson, of the chamber here, in regard to reduced rates to the deep waterways convention at Detroit Dec. 17. Also other matters of mutual interest to both chambers.

Crist R. Berg has brought suit in the United States circuit court against the Lehigh Coal company to recover \$25,000 for injuries sustained while working in a coal vessel. He was accidentally hoisted into the air on the hoisting hook and fell a distance of 40 feet to the deck, and from there into the hold.

The theatrical company that gave "The President" was "kicked up" last night for the season and could not play at Superior as expected. It seems to have been a matter of cash. The leading lady left, and as the manager had already gone with the libretto, nobody else could do her part.

The company was to have played in Ashland, Hurley and other like towns, but has instead started for New York. The "Midnight Alarm" company is also stranded in Superior. It played here last week.

The Grasshopper cantata given last evening for the Saturday club under the auspices of Mrs. Stocker was a success and attracted a large audience. The program was carried out as outlined yesterday, except in one or two particulars, and a nice sum was realized to help pay for the club's pianos. The entertainment was so pleasing that the request was made that it be repeated for the Bethel. At this second presentation some few changes will be made in the program.

Do not fail to hear Page Morris deliver his thrilling lecture tomorrow evening at Endion church. Admission, 25 cents.

## GRAND LAKE NO GOOD

The City Engineer Decides That Water From the Lakes Back of the City is Not Available for Supply.

He Will, However, Test the Cluquet River, but With not Much Hope for Success From That Source.

An Incline Road Car Brings up Sharp and Half a Dozen Passengers Feel Like Heroes of a War.

"Well, what did you find at Grand lake?" was asked of City Engineer Keating this morning.

"We found that the water was probably not good enough for drinking purposes, at any rate not as clear as Lake Superior water," answered Mr. Keating, as he held to view a large bottle of water that contained considerable vegetable matter. "Besides, there is not enough water there to supply Duluth."

In most places the water is only four or five feet below the deepest only 10 feet. We noticed the flow at its outlet, and I am convinced that it is not as great as our daily consumption. You see the watershed is very limited. The altitude of the lake is 740 feet above Lake Superior, which is ample to supply all but the very highest portion of the hill. But the expense of buying water, even were it plentiful and first class, would be too great. We did not think the Grand lake water was feasible when we started, but we want to have our facts down pat in regard to every possible source of supply. Tomorrow we shall make a trip out to the Cluquet river, over the Vermilion road."

Mr. Reed said the lake was evidently nothing but a large swamp covered over with a few feet of water. There are supposed to be no springs in it. He estimated the water that flowed out at not over 1,000,000 gallons, whereas Duluth consumes 2,500,000 a day and one of her pumps will force 5,000,000 a day through the mains.

## CABLE CAR INCIDENT.

An Accident at the Incline That Did Little Damage.

About 3 o'clock this afternoon the west car of the Incline road struck the stone buttment at the base of the hill with force enough to smash the passenger carcase, what it started a few bolts and nails in the big carriage itself. The hauling cable—a steel wire affair 1½ inches in diameter—was said to have broken when the car was within 50 feet of the foot of the hill. As a matter of fact the cable did not break but the engineer at the power house negligent. The six or seven people on the car were considerably scared.

It seems that the incline has not worked just right since the last fault seems to be with the engine, which has not worked as it should. Men have been fixing this defect for several days.

## THE MARKETS.

Dull Today, With Everyone Waiting for the Government Report on Winter Wheat.

The wheat market opened at a slight improvement over last night's close. Business was fairly good. Cables were rather weak but clearances from the seaboard were very large. New York cleared in wheat and flour 718,000 bu and live hogs. The trade was disposed to wait the government report. It was generally supposed that it would give a low estimate of the stock of wheat.

## A Duluthian Killed at Bayfield.

Emil Anderson, an employee of the Cranberry Lumber company of this city, was killed by a falling log at Bayfield, there yesterday and several cars passed over his body. Strange to say no cuts were visible on his person. It is supposed that a brakeman struck him. He died last night. Anderson lived in Duluth, where he has a brother. The body will be buried in Bayfield.

## A Wheat Buyer Sings.

"For some months past J. Sidebotham has represented S. S. Linton & Co. of this city, as a local wheat buyer at Hillsboro, N. D. He has shipped several car loads in his own name and started for England without making returns. One farmer loses \$500 and many others smaller amounts. Linton & Co. lose nothing, though they do not know what has become of Sidebotham."

## THE REALTY MEN.

They Will Perfect Their Organization and Get Ready for Business.

At a meeting held in the chamber of commerce the real estate men, presided over by C. E. Lovett, talked over the proposed real estate association, and the sentiment was most strongly in favor of it. Mr. Lovett thought that because of the inflation elsewhere, particularly on the coast, it was better to turn this way nearly \$3,000,000 for investment next season. "This money can be brought here," he continued, "by a little judicious advertising. It has been frequently asked what are going to do with the laboring men. I think the laboring men are tolerably well provided for. I do not think they can go into any city of the size of Duluth and purchase building lots for \$200 as they can here. Being industries and manufactures here and the laboring men will take care of themselves. Bring iron and steel concerns here. Men who work in such places require no help."

Several others spoke. Z. H. Austin thought the association should exclude small dealers, but was sat upon. J. D. Striker thought too much money had been spent in ill-advised and fake advertising. It ought to be done on a plan. It was finally voted to appoint a committee on permanent organization, and Messrs. Crosby, Holliday and H. M. Myers were named.

Jay Cooke interests come first. The St. Louis River Water Power company hold a meeting this forenoon and elected John M. Butler, of Philadelphia, president, vice E. L. Emery, deceased. They also elected James Bardon, of Superior, to fill the deceased man's place. Mr. Butler will continue to reside in Philadelphia.

Enraptured and Shot. TAMELQUAH, I. T., Dec. 10.—Josiah Poorboy, a Cherokee who was acting as posse for a United States marshal, and a man by the name of Thomas Whitehead, reported to have been acting in the capacity of government detective, were ordered to leave by John Brown, a white outlaw. Yesterday afternoon about 1 o'clock John Brown came here and told Poorboy and Whitehead that he could command a whiskey peddler's camp. Nearing the place where they expected to find their prey their pilot departed, telling them to proceed to a place in a dismal swamp and he would join them soon. About 4 o'clock they were met by a number of men and commanded to surrender. Some little hesitation was shown and immediately a volley of shots was fired by the outlaws. Every shot seemed to have done its work, as the bodies showed signs of many wounds. The two murdered men were brought here this evening by a citizen who resided near the killing took place. Great excitement prevails today and all the Cherokees join in denouncing the murderers and stand ready to volunteer their services to crush the blood-thirsty outlaws out of existence.

An Ex-Convict's Death. CHIPPEWA FALLS, Wis., Dec. 10.—The sensational death by poisoning of Miss Nellie Labour, who came here with Theodore Rounds last Friday, and with whom she has been living as his wife at the Louisville house since, has caused great excitement here. The first intimation of the affair was given by Rounds himself yesterday morning, when he called a physician, saying that his wife had taken poison and was dying. Despite all that medicine could do she died at 11 o'clock. Rounds now claims that he brought her here as his mistress from South Dakota and that he does not know the woman's true name, only that her parents live somewhere in Iowa. About nine years ago Rounds was sentenced to Vaupatan for a term of twenty years for the killing of Garrety, of Hudson in this state, but was pardoned about two years ago by Governor Howard.

## GLADSTONE TALKS.

The Grand Old Commoner Tells the People's Party Where He Stands.

Flatfooted on the Platform of the Toilers and Will Try to Take Shackles Off.

"Society Has Not Done Its Duty When It Sends the Aged to the Workhouse."

LONDON, Dec. 11.—The committee of the national liberal federation this morning gave a banquet to the delegates from the rural constituencies who attended the great liberal conference held yesterday at the Memorial hall, Farringdon. The banquet was held at the famous Holborn restaurant and was largely attended. Many of the most prominent liberal members being present. Gladstone, who was present, at the earnest request of the liberal leaders, though the old statesman is not passing through London en route to the continent, received an ovation such as no other living Englishman could receive. During the course of the banquet Gladstone made a most important address on the subject of rural reform in which he practically pledged the liberals to the reform measure. The labor question had now assumed, said Mr. Gladstone about the same proportions and aspects as the home rule question, because, he explained, the Irish landlord was really struggling with the agricultural laborer. The project of organizing rural labor was not a new one, but the most question now before the British public as the constant and damaging migration of rural laborers to the towns proved most conclusively. He said the government deserved credit for taking a slight step in this direction by passing a county council bill, but that the measure does not by any means satisfy the liberal party except in the fact that it embraced the right principle. Mr. Gladstone claimed that the liberal party would lay hold of the principle of county councils and affirmed that it was the duty of the government to provide for the establishment of district councils so as to bring self government within the power of the labor classes throughout the country.

The great liberal leader also strongly advocated the passage of a law for the purpose of enabling the local government bodies to acquire land in order to enable the rural population to use and profit by it to a very much greater extent than they were now able to do. It was time, he said, that the land they had so long tilled for the benefit of others should give them some real profit and permanent benefit. Continuing, Mr. Gladstone touched upon the question of the reduction of the hours of labor and said he was in favor of reducing the hours of toil exacted from the working classes in general; but he desired that such a reduction should be met with out any violation of the rights of employers or employees. The principle of liberty must not be violated, he claimed, even in making these needed reforms. He was in favor of paying members of parliament for their services as this would be of great benefit to the laborer and put forward by the labor and rural constituencies. A fair representation of these classes in parliament was, in his opinion, absolutely necessary and proper for the government of the country and this representation could hardly be without calling for a drain upon the funds of the local organizations, unless members of parliament received payment for their services. Mr. Gladstone said he favored an amendment to the Irish conspiracy laws, so as to allow the laborers in Ireland to combine to obtain better wages and results for their labor and for their products. If the rural reforms advocated were carried out, the speaker said, he saw the way clearly to a better rural population. Society had not performed its duty when it sent the aged and blameless laborer to the workhouse. (Applause.) The laborer had a right to be placed in the position of being able to put the spade into his own land and the parish councils he had already referred to were the only means of securing him this right, and of securing an adequate working of the small allotment plan of relief for the rural communities. (Cheers.)

One of the Harper's Hurd.  
NEW YORK, Dec. 11.—Mr. J. W. Harper, of the publishing firm of Harper & Bros., while passing through Central park came in collision with the carriage of Mrs. Ewells of east Fifty-third street. Mr. Harper was thrown from his wagon and injured.

## WHAT CHILE WILL DO.

Minister Matta Says she Will not pay all the Claims Presented.

VALPARAISO, Dec. 11.—Foreign Minister Matta has made a report to congress relative to the claims made against Chile by foreigners in which he says the government is not bound in duty to administer strict justice. The Chilean ministry has, he adds, rejected all attempts to formulate claims which at times have been allowed in America owing to the circumstances under which the government against whom such claims were preferred was placed toward those in whose favor they were formulated. To countenance the present attempts would be to create in favor of foreigners privileges that are allowed neither by state nor international law. While there is no doubt, he concludes, that the claims of the prominent British merchants are in several cases greatly exaggerated, still in the end the Chilean government cannot refuse to pay a large portion of the claims made for the sack and looting in Valparaiso, Vina Del Mar and Santiago as well as for damages to the national railroad and the detention of steamers.

English Farmer Movement.  
LONDON, Dec. 11.—There was commotion yesterday in Memorial hall, this city, one of the most important conferences in the history of the liberal party in England. Officially it is termed the National Liberal Federation conference, but in fact it is a conference under the auspices of the liberal party of farmers, village artists, agricultural laborers and others directly or indirectly connected with rural life, a sort of English Farmers alliance, having for its object the outlining of legislation calculated to bring about an improvement in the condition in the out-of-town communities.

As Before Stated.  
CLEVELAND, Dec. 11.—The Iron Trade Review, in its annual summary of the Lake Superior iron ore business, gives figures showing that shipments from Escanaba were 3,060,000 gross tons; Marquette, 1,200,000; Ashland, 1,253,320; Gladstone, 101,338; Two Harbors, 892,995; total, 6,407,679, as compared with 9,053,067 in 1890. Of the six and a half million tons shipped this year as above, 4,930,684 tons were received at Lake Erie ports and 1,550,221 tons went to Chicago and other Northwestern points.

Mr. Mills Sick.  
NEW YORK, Dec. 11.—A special to the Recorder from Washington, says that Mr. Mills has been confined to his room at the Williams since the organization of the house. He was overworked and nervous and then, by a great effort, will be able to be present at the nomination of his successful rival. He is now prostrated with malaria and was delirious yesterday. His friends are decidedly anxious as to the outcome of his illness. The report that he would decline all active part in the work of the house has been denied on his own authority.

Don't Want the Gold Cure.  
SAN FRANCISCO, Dec. 11.—John L. Sullivan, who is in Los Angeles seeking again, indignantly denies the report received from Chicago that he is soon to be treated by Dr. Keeler's gold cure. "There is no truth in it," he said. "I know all about the gold cure. A rich man in San Francisco took treatment and came out of it a perfect wreck. I am not in need of any such treatment for nothing. When I want to stop drinking I can stop. I never take medicine to help me to do things. I can accomplish with my will."

Milwaukee to Play Ball.  
MILWAUKEE, Dec. 11.—Milwaukee will remain in the American association. This is good news to local ball cranks brought over the wires from Phelps, of Louisville, who in a letter to the Prince of Boston, the Wagners of Philadelphia, and Vanderhorst of Baltimore, whose brains and money are back of the Association. They write in decree that the league's 12-club consolidation project will not be accepted by the American association.

Smokeless Powder.  
WASHINGTON, Dec. 10.—The new navy smokeless powder was tried in a 4-inch rapid-firing gun for the first time at the Indian Head proving ground Wednesday. The trial was a complete success. The powder is as much a success for guns of large caliber as it was at first shown to be for three and six-pounders.

The Rush at Creede.  
ONE FOOT OF SNOW AT CREEDE. There is one foot of snow at Creede, but the rush continues. Old mining men pronounce Creede the wonder of the day. Every foot of ground suitable for building purposes is being taken and all sorts and conditions of people are in camp.

Hunting for a Stolen Child.  
CHICAGO, Dec. 11.—The police of this city are looking for Burton Ford, the 10-year-old son of David C. Ford of Crystal township, Oceana county, Michigan, who was stolen from his home last Friday. The boy is known to have been kidnapped and is supposed to have been brought to this city.

The Crow's Nest Pass.  
VICTORIA, B. C., Dec. 11.—The British Columbia & Southern Railroad company have discovered a new pass at Crow's Nest, 600 feet lower than the present one, at an altitude of 4275 feet. Fifty different seams of coal have been discovered in the vicinity of four distinct kinds, one a magnificent camel coal.

Imported Knick-Knacks.  
Of all descriptions in sterling silver, etc. Some exquisite designs in Persian, Italian, Austrian and Russian goods, besides an endless variety of little trinkets of same order that don't cost much money, and are just the thing to give for Christmas gifts where one wishes something unique and pretty for little money. Call and make your selections before the Christmas rush begins, and thus get the pick of the goods.

Andrew Jackson, Jeweler,  
100 West Superior street.

Connoisseurs and admirers of art will find a treat in store for them by calling at LaVague's to see the exhibition of fine etchings and engravings that have just arrived by express.

Watches make nice Christmas presents for ladies or gentlemen. Call at Holth Bros., Hunter block, and examine their stock.

Have you seen the 1892 calendars at Albertson & Chamberlain's; if not call and see them.

Probably the finest collection of etchings and engravings that ever came to Duluth is now on exhibition and sale at LaVague's.

## ON THE POTOMAC.

A Crank Calls at the White House for the President's Protection.

The Explosion of a Steam Pipe in the Hall of the House Makes Much Commotion.

The Treaty With Germany Made Public; Attorney General After Free Passes.

WASHINGTON, Dec. 12.—Neither house of congress is in session today, but there were busy knots of members in both halls and about the corridors of the capitol all day. The members are getting acquainted and sizing each other up for the coming fray. The greetings are cordial, and a spirit of general good will prevails on all sides. The republicans are in too small a minority in the house to question democratic wishes and the feeling between the sides is akin to that between a small boy and his big brother.

A White House Incident.  
A man giving his name as Thomas Mercer Hogg was arrested a few days ago at the White House while endeavoring to gain an audience with the President. He has been adjudged insane by a board of physicians. Failing to gain admission to the executive mansion, Hogg wrote a letter to Mr. Harrison as follows: "What I wish to speak to you about is that from the time I signed the declaration of my intention to become a citizen of the United States of America, I have lived in the state of New York and the city of New York and in Bayonne, Jersey state, and in Homestead the state of Pennsylvania. The time I came here was in October, 1889. There have been a number of persons after me here since 1882, and I cannot get a step to the same. I let me enjoy the privileges of a citizen of the United States." Hogg is about 28 years of age and has \$121 in currency in his pocket.

The German Treaty.  
The state department today made public the reciprocity agreement entered into with Germany, whereby the sugar from that country secures free admission into the United States, and American products named obtain admission into Germany at reduced rates. The tables show a reduction of German import duties on wheat of 30 per cent, rye 30 per cent, oats 37½ per cent, corn 20 per cent, butter 15 per cent, and wheat, flour and corn meal 30 per cent. This agreement was submitted to the German reichstag on the 7th instant and if approved by that body will go into effect Feb. 1.

Explosion at the Capitol.  
A steam pipe burst in the southeast corner of the hall of the house of representatives a few minutes before 1 o'clock today causing much commotion. The house was not in session, but many of the members were at their desks, and the floor was crowded with visitors. The report was very loud and the first thought was that some crank had set off a dynamite bomb. Members and others who were very near the point of the hall tumbled over each other to get out, but no one was hurt.

The Bar Association.  
The last day's session of the National Bar association began in the lecture hall of the Columbia Law university this morning and was presided over by Mr. Fendall, of Washington. A resolution providing for the appointment of a committee consisting of the president and four members of the association to cooperate with the committee on law and reform of the Columbian exposition, in bringing about the organization of an International Bar association was adopted.

Fighting Free Passes.  
Attorney General Miller has decided to test the right of railroad companies under the interstate commerce law to issue free passes over their lines.

Physical Phenomena.  
LOUISVILLE, Ky., Dec. 11.—Dr. Coomes, of the Kentucky school of medicine, has concluded his investigation of the case of Mrs. Mary Stuckenberg, the woman who, while apparently in a cataleptic state, has exhibited upon her person the stigmata or marks of the passion of Christ. He refuses to endorse the manifestations as genuine but says that the phenomena may be due to the woman's intense mental concentration upon the passion and the death of the Savior.

Has Gone Away.  
NEW YORK, Dec. 11.—Fred Kreusler, 34 years of age, son of Arnold Kreusler, wealthy broker in brokers' supplies, has been missing since Nov. 30. He carried a brown coat and had between \$700 and \$800 in his pocket.

For fine Christmas presents go to Boyce's drug store corner Fourth avenue west and Superior street.

## FOND DU LAC DAM.

I Will Occupy Attention When Water Power Affairs are Settled.

It is reported, by one of the people connected with the Water Power company that, although matters are yet in a rather chaotic state the improvement of the privileges will be resumed at a very early date. If the new company does not prosecute the work the old company will take it up. The first thing to be attended to is the building of the Fond du Lac dam. Fire is to be started in the brick factory ovens today.

## ONE OF THE GREATEST

Problems of the Day is How to Make Money.

You can save from \$5 to \$10 on a suit or overcoat by calling on the Duluth Art Tailoring company, 18 Phoenix block, as we make a special offer in compliance with the present times. We are bound to keep the hum of business up even at reduced rates on suits and overcoats. We will make you a first class business suit at \$30. Also overcoats in meltons, kersays and chinchillas at \$30. All workmanship strictly first class.

## A MOTHER'S CRIME.

She Murders Her Son and Falls Dead at the Revelation.

VIENNA, Dec. 11.—A mother's murder of her son is the unparalleled tragedy reported from Wiselberg, Hungary. Sixteen years ago the son of a poor peasant living in the county of which Wiselberg is the capital went to America. There by industry he saved \$3000 and then returned to his parental home. It was late at night when he reached his father's house and he did not immediately make himself known, but asked for hospitality as a stranger. The mother was not there at the moment, but the father recognized his son through the disguise of years and embraced him. The son, being weary, retired to rest, after telling his father of the little fortune he had brought home with him.

The money was in a bag near his bed. The father did not tell the mother when she came home who the stranger was, resolving to wait and let the son reveal himself to the joy and surprise of the mother. The latter got up during the night and examined the stranger's baggage and finding the gold—a larger sum than she had ever dreamed of—determined to possess it. The husband and son slept and the mother stealthily cut the throat of the stranger and hid the gold. When the father awoke he found his son in a pool of blood. His cry of anguish and horror aroused the wife who had expected to find her husband a ready helper in concealing the crime for the sake of the money. The father gasped out who the victim was. With one cry the murderers reeled and fell dead.

## The Continental Treaties.

LONDON, Dec. 11.—Political economists are now seriously criticizing the new commercial treaties and point to the fact that the dreibund made significant sacrifices so as to induce both Belgium and Switzerland to join the Zollverein. The tariff concessions of Belgium are of small importance while the reduction of tariff in staples of Belgium industries made by both Germany and Austria are not only large but numerous. In the matter of the treaties with Switzerland both Germany and Austria display similar political motives. The concessions though not quite so heavy as those of Belgium, are equally numerous. A dispatch from Berlin states that if England will help to isolate France the Zollverein will make concessions to England equally as great as those of Belgium.

11.—In view of high pressure covers the entire  
country with a center over Nebraska. No pre-  
cipitation is reported and the weather is gen-  
erally clear. Slight changes have taken place in  
the temperature. The warmest place is Fort  
Smith, Ark. 39°. The coldest is Alaska.  
The prospects are for continued fair pleasant  
weather for the rest of the week.  
The highest temperature here yesterday was  
40°. The lowest last night 29°. The mean of we-  
ster yesterday was 35°, which is 18° above the  
normal.

HEALTH, Dec. 11.—Local forecast for Duluth  
and vicinity for twenty-four hours ending at 8 a.  
m., Dec. 12: Fair, slight change in tempera-  
ture.

## SPEAKERS OF THE HOUSE.

The election of Charles Frederick  
Crisp as speaker of the house in the  
Fifty-second congress calls attention to  
his illustrious predecessors in the chair.  
Including the incumbent there have  
been thirty-six speakers under the con-  
stitution.

First came Pennsylvania in 1793 with  
F. A. Muhlenberg, and it has thrice  
since claimed the chair, with Mr. Muh-  
lenberg again in 1793, Galusha Grow  
in 1861 and Samuel J. Randall from 1877  
till 1881.

Connecticut furnished Jonathan  
Trumbull in 1791, while New Jersey fol-  
lowed suit with Jonathan Dayton in 1795.  
and again with William Pennington in  
1860. The old bay state, that claims to  
be the cradle of liberty, has given the  
country four speakers. Theodore Sedg-  
wick in 1799, Joseph B. Varnum in 1807,  
Robert C. Winthrop in 1847, and Na-  
thaniel P. Banks in 1856. North Caro-  
lina has had but one speaker, Nathaniel  
Macon, in 1801, while South Carolina  
rivaling Massachusetts in the number  
of her illustrious names, has had two,  
Langdon Cheves in 1814 and James L.  
Orr in 1827.

Kentucky has been most honored in  
the choice of the house, and may well  
claim to be the mother of speakers.  
Henry Clay first served from 1811 to  
1814, then from 1815 till 1820, and later  
from 1823 till 1825. John White of that  
state was seated in 1841, Linn Boyd in  
1851, while John G. Carlisle served from  
1883 till 1889, giving Kentucky the  
speaker'ship for twenty-two years.

The Empire state, the greatest in the  
Union, which for nearly half a century  
has said who should be President, has  
had the speaker'ship but twice, and that  
by the same man, John W. Taylor, who  
served altogether but three years back  
in the twenties. For nearly three-quar-  
ters of a century she has been satisfied  
to dictate and let others serve. The  
election of Mr. Crisp is now charged up  
to Tammany and is said to please the  
tiger as well as if he were her own true  
cub.

Virginia, the mother of early presi-  
dents and the grandmother of later ones,  
has four times captured the chair, but  
not since 1843, when John W. Jones held  
it down. R. M. T. Hunter, Andrew Stev-  
enson, and Philip P. Barbour had pre-  
ceded him. Tennessee claimed it for  
John Bell and James K. Polk from 1835  
to 1839, while Indiana, the land of the  
tribe of Benjamin, gave it to John W.  
Davis in 1845, to Schuyler Colfax from  
1865 to 1869, and in 1875 to Michael C.  
Kerr, who died the next year in office.

Maine has given the country two of its  
most illustrious speakers in James G.  
Blaine and Thomas Brackett Reed, while  
Ohio with her redundancy of statesmen  
has had only J. Warren  
Keifer, a gentleman who like Bill Allen  
at the same state, was noted for his  
horn accents. Mr. Keifer unfortunately  
offended the press gallery and, although  
a man of many worthy qualities, went  
down to his political death, "unwept,  
unhoned and unused."

Georgia has twice honored herself—  
with Cobb and Crisp, the former serving  
from 1849 to 1851. Thus the thirty-six  
speakers have all come from fourteen of  
the forty-four states and nearly all of  
them from the land beyond the Alle-  
ghenies. Six still live—Banks, Blaine,  
Reed, Carlisle, Crisp and Keifer—and  
this list of the living is a body of men  
equal in every way to any equal number  
of those that are gone.

## THE ENGLISH FARMERS.

A movement that will have an im-  
portant bearing on the future politics of  
England was begun in a meeting of  
farmers and laborers in London yester-  
day. It is much the same as the people's  
party movement in this country and may  
prove as overwhelming in its results.

The meeting was closed with a big  
banquet today, and Mr. Gladstone,  
who was passing through the town on  
his way South to make a tour of the con-  
tinent, addressed the meeting in a man-  
ner that gave much hope to the toilers,  
ending in an ovation to the ex-premier  
such as no other man in England could  
secure. The labor problem is closely  
allied to the question of land owner-  
ship and home rule for Ireland, and  
it is not improbable that in a  
land where there are so many real

causes of grievance against the govern-  
ment the people's party will wield a  
great and permanent power. In his  
speech Mr. Gladstone pledged the  
liberal party to advocate and push for-  
ward the reform measures asked for, and  
though he is now full of years he ex-  
pects to return from the continent in re-  
newed vigor of health and accomplish  
for the farmers their highest hopes.

The whaleback steamer Wetmore hav-  
ing lost her rudder was picked up  
Wednesday morning by the British  
steamer Zambesi three miles off the en-  
trance to the Columbia river in the Pa-  
cific ocean and towed into Astoria, Ore.,  
where Capt. Edwards, of the Zambesi,  
filed claims for salvage which it is said  
will be one-third the value of the vessel  
and cargo, or about \$160,000. The ad-  
vertising thus secured will be worth to  
the Standard Oil owners all it costs, and  
then, too, Duluth incidentally comes in  
for a little credit as the birthplace of  
this race of sea monsters. Losing a rudder  
those to shore isn't altogether in  
vain after all.

The Louisville Courier Journal, which  
is about as near a free trade and free  
silver advocate as it is possible to be,  
urges the free silver folks to do one  
thing at a time, saying: "The robber  
tariff disposed of, we can talk about the  
finances. Meanwhile, let us try and  
learn something about silver and gold,  
and the relation they hold to this coun-  
try and the world." We are pleased to  
see our friend Henri Watterson place  
silver in a secondary place till the coun-  
try has had time to learn something  
about it. Finance is an international  
question.

Birmingham, England, is building a  
new waterworks, the supply for which  
will come from the Eian and Claveren  
rivers in Wales, eighty miles from the  
city. The aqueduct will have ten miles  
of tunnel, thirty-five miles of conduits in  
excavations, and thirty-five miles of iron  
pipe. This but shows the disadvantages  
under which many communities labor,  
and must make Duluthians happy to be  
in convenient reach of the greatest body  
of fresh water in the world. Even in  
our own country Washington and New  
York go many miles to get an indiffer-  
ent supply.

The Superior Leader is climbing to  
the front again. Under the new own-  
ership by Frank Flower it has resumed its  
eight-page form and is filling up with  
good wherewithal advertising. Super-  
ior should soon have one paper as com-  
plete as any in Milwaukee which would  
be the political and commercial  
mouthpiece of all Northern Wiscon-  
sin. Being so far from the present  
metropolis of her state, Superior has in  
an oracular newspaper sense a slight  
advantage over Duluth as the Twin  
cities are now in our suburbs. Mr.  
Flower blooms in a cold climate and  
seems to be a sort of lowland lily.

Great men often have ungrateful  
sons. Sometimes, too, great men are  
greater fools than other people, and not  
infrequently their children go to the bad  
through neglect. All the genius in the  
world possessed on the part of the par-  
ent cannot make up for the lack of gen-  
tle training to his children. This, per-  
haps, is the only explanation of the fact  
that the son of Joaquin Miller and his  
wife Minnie Myrtle, was arrested this  
week for stage robbing in the Rockies.

The widow of a Confederate soldier  
has recently been granted a pension by  
the federal government. Her Confed-  
erate husband, however, fell at Vicksburg,  
and after the war she married an ex-  
Union soldier who has since died. It is  
unnecessary to add that it was her last  
and not her duplex widowhood that se-  
cured the government's reward of merit.

Already Dave Hill's influence in na-  
tional politics is being felt, even before  
he has donned his senatorial toga. He  
will prove himself a power at Washing-  
ton, and like Bismarck will employ lan-  
guage to conceal thought.

Just because The Herald, in keeping with its  
name is climbing to the fore at every sunset  
and the dear old New from its basement, good can't  
sleep up, it lifts up its voice, likewise its weep-  
ing eyes, and cries that we don't run fair. This  
was to be expected from those who can see only  
the shining and weary side of life, but the  
broad-minded Herald harbors no unkind thought  
and in its bosom are none of the tangled, ser-  
pentine sentiments of revenge. It slanders  
over the hillside in the twilight gloaming to  
every home, and like a true forerunner leaves  
everything else behind. Office in Henderson  
block opposite the Spaulding.

"The weakness of a woman's knee," says the  
Medical Record, "is owing to the short distance  
between the crest of the ilium and the great

that the horrid men should all hold their own.

Some seem to think Roswell P. Flower is on  
the presidential tow path, but the country isn't  
quite ready to make a conservatory of the  
White House.

Don't be worrying about the democratic  
convention. If you want to be sure to be in it, buy

Yes, give us an income tax—something that  
we can keep and call our own. All our present  
taxes go the other way.

Now that Crisp is in the chair of course the

## COLD FACTS.

Some Members of the Board of Educa-  
tion Disport Themselves in Peti-  
cotes.

A truthfully and candidly written ac-  
count of the origin, and the nature of  
certain uncalled for and inexcusable  
official acts on the part of the Duluth  
board of education, may, about this time,  
prove "highly interesting reading" to  
the taxpayers of this city.

It will evidently surprise no small  
number of the citizens of Duluth, to read  
that its public schools are, to a degree,  
misgoverned by persons whose ostensi-  
ble professional duties are in no way  
connected with the public schools, and  
whose efforts are largely given to the up-  
building of a private college.

It is said, however, the persons referred  
to possess no little influence over certain  
members of the board of education; an  
influence which has been exerted, it is  
alleged, to further personal ends to the  
cost of the best interests of the pupils of  
the public schools.

Some time ago John D. Gill conceived  
the idea of forming and encouraging a  
course of cheap lectures to be delivered  
in this city during the present winter.  
The project was born before the public  
was aware that the principals of a pri-  
vate seminary, assisted financially and  
otherwise by the president of the board  
of education, and two or more members;  
aided in founding what is known as a  
local branch of the university extension  
course of lectures, an admirable institu-  
tion worthy of the most extensive patron-  
age. It is needless to add that the  
course of lectures has, and will, largely  
advertise the seminary referred to.

Mr. Gill, in looking about him for  
some way by which to popularize the  
lectures, concluded to enlist the services  
and sympathies of the boys and girls of  
the public schools. To accomplish that  
purpose it was determined to fix the  
value of course tickets, admitting to 10  
lectures, at the low price of \$1 each; to  
induce the boys and girls to sell them;  
to form a club or association of the High  
school pupils which should have author-  
ity to elect lecturers, and to dispose of  
the proceeds of the entertainments; to  
devote the profits, if any, of the course  
to the purchase of a clock for the tower  
of the High school and the national col-  
lege for all local school buildings.

Mr. Gill submitted his ideas to Super-  
intendent Denfeld and to a number of  
the teachers and pupils of the High  
school. The superintendent approved of  
them and many of the teachers and  
pupils became highly interested.

It had been decided to give the lec-  
tures in the Temple Opera house, and  
the series was to have been opened with  
vocal and instrumental music. Under  
the direction of two public school  
teachers some 400 pupils were at one  
time busily rehearsing the music for the  
opening. Seventy-five pupils began the  
sale of tickets, and the future of the  
cheap lecture course was bright and  
promising.

Suddenly the board of education per-  
emptorily began to discourage the Du-  
luth High School Lecture association.  
The board forbade the pupils and  
teachers to take any part in the lecture  
course; teachers were instructed to dis-  
courage the pupils, and if possible pre-  
vent them from selling tickets; the board  
forbade the pupils, janitors and all others  
to distribute through the schoolrooms  
printed matter advertising the cheap  
lecture course of the Duluth High School  
Lecture association.

As a result of such arbitrary com-  
mands the teachers who were in sym-  
pathy with Mr. Gill's plans refused, for  
fear of the board's wrath and vengeance,  
to further foster the enterprise, and the  
pupils were actually afraid to further en-  
deavor to win prizes which had been  
generously offered them by an old  
soldier for the sale of tickets.

Mr. Gill called on H. W. Pearson, a  
member of the board and treasurer of the  
university extension course, for an  
explanation of the board's action. Mr.  
Pearson informed Mr. Gill that it was  
"the intention of the board of educa-  
tion to put a stop to the lecture course"  
of the Duluth High School Lecture as-  
sociation, but the latter did not inform  
him because he believed the attendance  
on the university extension course of  
lectures, of which he is a financial back-  
er, might possibly be badly affected.

Mr. Pearson did not tell Mr. Gill that  
F. W. Paine, a member of the board,  
guaranteed the university extension  
course from loss, and that he, H. W.  
Pearson and W. C. White, president of  
the board of education, had pledged  
themselves in turn to secure Mr. Paine  
from loss.

Mr. Pearson said in effect, the board  
of education would break in two  
the High school lecture enterprise,  
but he failed to state that the  
superintendent of the public schools had  
been personally visited by a teacher in  
a private school, and an officer in the  
university extension course, and be-  
sought to use his influence to induce the  
board to "sit down" upon the association.  
It had apparently never entered the  
mind of the important person that the  
success of either of the lecture courses  
could not but beneficially act upon the  
success of the other.

Mr. Pearson did not say to Mr. Gill by  
what right or reasoning members of the  
board "boosted" a course of compara-  
tively costly lectures for the benefit of  
a limited institution, of which members  
of the board are financial backers, and  
officially discontinue and forbade all  
encouragement of a cheap course of  
lectures, delivered by able men, and for  
the sole entertainment and instruction of  
the pupils of the Duluth public  
schools.

Mr. Pearson failed, in the presence of  
Mr. Gill, to analyze the forcible influence  
exercised over the official acts of the board  
of education by persons who, it is pre-  
sumed, have no official connection with  
the members of the board and no inter-

est whatever in the welfare of the public  
schools.

A perusal of these facts will doubtless  
suggest to many local taxpayers that a  
woman's hand not only can rock a  
cradle, but can, without authority, dic-  
tate the management of a big public  
school system.

The members of the board of educa-  
tion certainly have a right to invest of  
their private means as they see proper  
in all legal ways, and their practical en-  
dorsement of the university extension  
lecture course is eminently creditable to  
their good sense. But why the board of  
education should go out of its way to  
disrupt and materially injure a praise-  
worthy enterprise of general good is one  
of those things which no fellow can find  
out.

What the School Bell Says.  
(James Buchanan in Boston Journal of Educa-  
tion.)

It is wonderful what unlike things  
The school bell says to the boys when it rings!  
For instance, the earnest, win-  
ning, and true, the school bell says to the boys:  
On his way to school, here's this sort of song:  
Why did I come?  
Study till four—  
Books are a bore!  
Oh how I wish  
I could run off and fish!  
Here's the book, win-  
ning, and true, the school bell says to the boys:

# WHAT WE'LL DO IN '92.

Two Schedules for Baseball Leagues for 1922 in Which Duluth is Expected to Take Same Part.

Baron Back, of Minneapolis, Says We Will be in the Western Association With the Clubs of Last Year.

While a St. Paul Ball Field is Getting a Minor League With All the Clubs Comparatively Near By.

There is talk of baseball for next season. Two associations are doing the usual preliminary shuffling and it looks as if one of them might set up a team for the year by which ball—at least as good as that of last year—would be given.

Hy L. Hach, of Minneapolis, says the Western association will be rejuvenated next year without a doubt. Mr. Hach declares that a meeting of the managers will be called in January or February to discuss the outlook and make preparations for next year, and, as a result of that conference, predicted that the following clubs would be "in it": Duluth, St. Paul, Duluth, Sioux City, Omaha, Kansas City and Lincoln, in place of the Duluth club. The Hach idea is to have all of the players engaged by one man who will be impartial in making terms, securing the best players who offer their services. Then let each club select the men whom it wants, and in case two or more clubs desire to enlist the services of the same player let them draw lots. This would reduce monetary competition to a minimum, regulate salaries and enable all the clubs to conduct their affairs on a business basis.

H. T. Smith, of St. Paul, who is now here, says he has arrangements completed with most of the following cities to form a minor league for 1922: St. Paul, Minneapolis, Stillwater, Duluth, Superior, Eau Claire, Winona and La Crosse or Ashland. He says St. Paul will not enter anything but a minor league for next year, and that his league will have a Minneapolis team whatever the Western association may do. He wants a salary limit of \$500 instead of \$250, as the Western clubs had last year, and says there are plenty of good players that can be secured at figures that would allow an excellent team in that limit. He believes the saving in rail fare and the local pride engendered by clubs in near by cities would help out to such an extent that the thing would be a success. Mr. Smith is of the opinion that young players, with enthusiasm and a reputation to gain, will do far better work than the listless crowd who held most of the points for Duluth last year. It will be recalled that the two or three men in the old Duluth team who actually did play were its young blood.

## TUG OF WAR.

Teams Representing the Nation are to Compete Next Week.

One of the greatest of athletic events ever held in Duluth will be the tug of war which opens next Wednesday night at Normanna hall and will continue for eight nights, unless there is a tie, when it will be pulled off later. A tug of war is the peer of any other athletic sport for excitement and is amusing as well. The tug in Duluth will be changed a good deal from those held in other cities. Instead of pulling each team seven feet, only two will be the rules in the Duluth tug.

Eight teams are being formed, Ireland, Norway, Sweden, Denmark, France, Germany, Scotland, Canada and America. Oh! Dahl will probably captain the Norway team. Canada is being looked after by Mr. Nicholson, Sweden by P. Larka, France by Peter Langlois. The Irish team is now being organized. Norway, Sweden and Denmark will probably be composed of sailors. American team will probably be made up of men from the Athletic club and will be the lightest team of the lot. The Germans will be turners. Five men and a captain will constitute a team.

The captains of the different teams will meet Saturday night and adopt rules to govern the tugmen. Each team will have only one clear and the anchor man can work the knot to suit himself. The French team average over 215 pounds a man. The Canadians are looked upon as winners and are giants at the rope. Sweden will have a good team and a number of the best of war men. Two Harbors may put in an English team and a Welsh team is talked of.

## SECURED ITS JUDGMENTS.

The Old Parent English Deals End in Big Judgments.

In the matter of judgments just secured by Albert Scheffer and others against the Iron Land company of Minnesota, a case in which there is considerable Duluth interest, as the deals were all with Duluth parties, Mr. Scheffer's brother says: "Albert Scheffer has no personal interest in the matter; he is simply acting as the agent or trustee of certain English gentlemen and others who are interested. They entrusted the matter to him for their convenience and because they relied upon his judgment." From further inquiry at another source it was learned that the debentures on which the judgments have been secured were given to secure payment of the purchase price of the lands sold to the Iron company. The company's bonds went on the market just previous to the Baring failure, which had an unfavorable influence, and the company did not sell sufficient of the bonds to warrant undertaking mining operations to any great extent. It had been proposed to secure a capital of \$500,000 and to make a start with \$100,000. A number of English gentlemen and others were interested. The present proceedings are in the nature of a foreclosure. Neither Mr. Scheffer nor the Commercial bank are personally interested, but various Duluth people, who sold the lands to the Englishmen, are. Just how they will come out nobody seems to know. The judgments are for something like \$700,000.

## WILL CHANGE THE DATE.

Duluth Old Fellows See Way Clear to a Grand Lodge Change.

R. E. Patterson, who received the following letter from Grand Master Johnson, of the Odd Fellows, it shows that the date of the annual grand lodge meeting can be changed: "The date of the grand lodge is set by the constitution and cannot be legally postponed except as provided by section 6 of article III, grand lodge constitution. I have thought the matter over some and think if there should appear to be a strong demand, some plan might be evolved to accomplish what is desired and will suggest this: You get a petition from as many of the Duluth lodges as possible and any other prominent members you can reach, setting forth that if possible they would like to have the date changed, and send to me, and I will have a consultation." Duluth Old Fellows have all along desired a change to a later date than June 2, and now feel sure that they will secure it. They will at once circulate the required petitions.

## NEWS FROM MORNING PAPERS.

The Fly Coal, Ice and Bottling company assigned yesterday to R. S. Miller, of Ely. A building permit was issued yesterday to Julius D. Howard for a residence on Tenth avenue east and Second street, next to \$500. It is alleged that this residence is to be turned over to the street boy, the Howard boy, who, as part settlement of her share of her father's estate. The debris from the Gude Bros. feed mill that burned a few weeks ago at the foot of Fifth avenue east, is being burned. A Delacy Wood, editor of the Grand Marais Pioneer, has been appointed judge of probate of Cook county. The Herald of yesterday stated that the police were looking for Kit Skinner, who it was believed that he had left town. The woman was seen on the street yesterday afternoon. Kit is the girl who ran away from her home at Grand Forks and entered a sporting house here.

## That Flour Mill not Settled.

James Bardon states that the bonus of \$50,000 for the establishment of a flour mill at old Superior by people interested with most of the following cities: Duluth, St. Paul, Minneapolis, Stillwater, Duluth, Superior, Eau Claire, Winona and La Crosse or Ashland. He says St. Paul will not enter anything but a minor league for next year, and that his league will have a Minneapolis team whatever the Western association may do. He wants a salary limit of \$500 instead of \$250, as the Western clubs had last year, and says there are plenty of good players that can be secured at figures that would allow an excellent team in that limit. He believes the saving in rail fare and the local pride engendered by clubs in near by cities would help out to such an extent that the thing would be a success. Mr. Smith is of the opinion that young players, with enthusiasm and a reputation to gain, will do far better work than the listless crowd who held most of the points for Duluth last year. It will be recalled that the two or three men in the old Duluth team who actually did play were its young blood.

## He Was a Miser.

Thomas Kocker, who died in a miserable hotel in Superior yesterday wanting the necessities of life, held on his person cash and deposit receipts on Duluth banks for some \$400. He also had government bonds and Superior east end real estate and his property is estimated to be worth about \$40,000. He lived in the greatest squalor and poverty and had no friends or relatives in this part of the country.

## The Duluth and Red Wing Route.

The Red Wing & Southern road may abandon its track arrangement with the Eastern Minnesota and build a line of its own the whole distance. The proposed route begins in section 12-45-14, runs south crossing the so called copper range in section 27-47-14, near the Copper creek mouth. It leaves Douglas county in section 34-43-15, and connects with the now located line a few miles below the county boundary.

## REDUCES ITS ROYALTY.

The Pioneer Iron Mine Makes a Deal by Which Its Shipping Probabilities Will be Largely Increased.

Senator Spooner, of Wisconsin, in Duluth today and talks to the President's Message and Duluth's Building.

He Thinks the Message to Congress is Gracious, Patriotic, Fair and Full of Common Sense.

Ex-United States Senator John C. Spooner and Hon. W. H. Phipps, signing themselves as from Hudson, Wis., arrived at the Spaulding today, as did also Thomas Bardon, of Ashland. All through the forenoon the gentlemen were in conference in Parlor K. Mr. Bardon is in conference with the Pioneer Iron company at Ely and the other two, together with J. A. Humbird, of Hudson, own the controlling interest in it.

It was reported by mining men that the gentlemen were here for the purpose of negotiating a deal to sell the mine out of the Minnesota Iron company. Attorney Draper, of the latter company, was asked in regard to the report and said that he had not heard of it before and that such a deal might be in progress. He said, however, that it was said that the senator and his friends are weary of holding the mine and for that reason they desire to sell it.

Senator Spooner is quite a young man, and a person with whom one can enter into conversation with great pleasure. He will in the future reside in Milwaukee, in order to better serve the big railroad for which he is attorney. He is one of the richest men in the country, having acquired his property when attorney for the Northwestern. Most of his wealth came from judicious investments in pine lands. Mr. Phipps is an ex-state senator.

Those who have been in conference with Senator Spooner and his party are Mayor Pattison, his brother William and Dr. Conan, of Superior, and Robert Whitesides, of this city, who own the fee of the mine. An interview with Mayor Pattison brought out the fact that there was nothing to the report that the lease held by the senator and his friends was to be sold to the Minnesota Iron company. It seems that a reduction of the royalty was sought and at 2 p. m. the Hudson men gained their point and all made a visit to the office of Cash & Williams in order to have the necessary papers drawn up. The agreement is that 50 cents a ton shall be paid on the first 75,000 tons and when that amount is shipped a rebate of 10 cents a ton will be made and only 35 cents a ton will be paid on all shipments over 75,000. There was no change as to the time in which a given amount is to be shipped.

Senator Spooner said to a Herald man that he was well pleased with the President's message, that it was patriotic, graceful, fair and, in fact, of good common sense on the important topics of the day. He was especially pleased with that part relating to the Chilean episode and believe that every American should have the protection of the stars and stripes. As for the recommendation to guarantee the bonds of the Nicaragua canal, that was a question that affected different parts of the country in dissimilar ways. On the Pacific coast the recommendation was undoubtedly peculiar, while on the Atlantic people were not so much in favor of it. The senator inquired as to progress on Duluth's public building and stated that he had the pleasure of reporting both the original bill and the one providing for an increased appropriation.

## THE WETMORE ADRIFF.

The Traveled Whale Found on the Pacific Coast Rudderless.

The best laid plans "gang aft agley." Capt. McDougall did not pilot the Wetmore up Puget Sound and the Snohomish river, after all. The first whaleback to visit the Pacific ocean met with what might have been a serious mishap yesterday before reaching the entrance to the sound.

The British steamship Zambezi, from Hong Kong, arrived at Astoria, at the mouth of the Columbia river, last night having towed the disabled Wetmore. Capt. Edwards, of the Zambezi, as soon as he had tied up Astoria, put in a claim for salvage, amounting to a third of the value of the Wetmore and cargo, or about \$100,000, this being the share allowed to vessels which save floating property from destruction. Before the steel barge company or the underwriters pay this claim it will have to be settled that the Wetmore was in danger of wreck, and that no act of her own officers could save her. This it will be hard to do as she was only about three miles off the mouth of the Columbia, to which the captain of the Wetmore could have gone for assistance.

Capt. Edwards says: "We left Victoria for the Columbia river last Sunday, at 11 o'clock Thursday morning, when off the mouth of the river, we sighted a singular-looking steamer, and found it was the whaleback Wetmore, lying signals of distress. She was then three or four miles off Tillamook rock, three miles south of the Columbia. Though able to steam she had no way of steering, the rudder having dropped out, leaving nothing but the rudder frame. I got a hawser out and had her in easy tow."

Capt. Hastings, of the Wetmore, says he began to lose his rudder two weeks ago when off the Galapagos islands. Plates dropped out as the rivets loosened, but he hoped to make his destination, Port Townsend. Under the circumstances he was very glad to get to the Columbia river.

Letter Carriers Organize. The Duluth letter carriers met in the postoffice last night and formed the Duluth Letter Carriers association, of which John Henchery was chosen president, Stephen King, vice president, and Henry Brown, secretary. One object of the association is to take steps to secure from congress recognition of the rights of smaller cities. There is a discrimination in the pay of carriers by which those in cities of over 70,000 people, where the work is really less severe than in smaller places, get larger salaries. This discrimination the carriers in smaller places will endeavor to regulate. All Duluth hopes they will succeed.

Good loans wanted, rates 6, 7, 8 per cent. FREDERICK P. JONES, 510 and 511 Lyceum bldg.

Order your signs for holiday purposes at La Vaques.

Ladies and gentlemen! corns, bunions, ingrown toe-nails and all diseases of the feet are treated and cured at Boyd & Wilbur's Temple Opera.

Three excellent offices and one dwelling, with all modern conveniences, for rent. Clague & Prindle.

The steamers John Harper and Alex Nimick are completing their loads of wheat in this port today.

Capt. Innan yesterday afternoon talked with the fire commissioners regarding protection to the dock front.

Page Morris lectures tonight at Endion church. Beautiful stereopticon views of the South. Admission 25 cents.

The second performance of the Grass-hopper cantata takes place next Wednesday evening, for the benefit of the Bethel.

The installation of officers of Keystone chapter, K. A. M., will take place next Friday night instead of tonight.

Capt. Presson, clerk of the United States court, will adjourn the court sine die on Dec. 15, as Judge Thomas is not expected to return to carry on the court.

At his conference with the board of fire commissioners yesterday afternoon, Capt. Innan agreed to submit a definite proposition at an early date for the protection of the dock front.

The fire at the Lehigh coal dock is so well reduced that no blaze is observable from this side the bay at night, and the Minneapolis engine that has been there this week was today sent home.

The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street, 12 m., 35° p. m., 40° 6° p. m., 38° 9° p. m., 35° 7° a. m., 30° 9° a. m., 30° 12° m., 32° Maximum, 42° minimum, 30° daily range, 12°.

The Epworth league of the head of the lakes elected officers as follows Wednesday night: Rev. C. H. Stocking, Duluth, president; Agent J. R. Gray, West Duluth, first vice president; Mrs. R. L. Scoville, Duluth, second vice president; M. M. Young, Superior, secretary; Mrs. Maud R. Barkey, Superior, treasurer.

The second lecture in the course at Endion baptist church will be delivered tonight by Hon. Page Morris on "Richmond." It will embrace a variety of Southern questions and will be illustrated by lovely stereopticon views of the South. Judge Morris' eloquence will be sure to draw a large attendance.

The new edition of Cram's atlas, containing the maps of Duluth and Superior, was received today by Agent J. R. Gray and will be delivered at once. Mr. Gray has sold some 400 copies in the two cities. The atlas contains all the census returns, the maps of states, cities and counties are corrected to a very late date, and there is a wealth of statistical information at small prices.

The atlas occupies the first two pages devoted to city maps.

## THE MARKETS.

A Heavy Decline Sets in Notwithstanding the Government Winter Wheat Report.

Early this morning the local wheat market was slightly firmer and later on there was an advance, but a steady decline set in about noon. The government report showed the poorest condition of winter wheat in any December for five years, but the people who make guesses on the crops figured that it was but 13 per cent lower than last year and that would still leave a great crop in sight.

There was no demand anywhere and when selling became free in other markets prices broke rapidly. Seaboard clearances were heavy. The total wheat and flour from the Atlantic ports amounted to \$25,000 bu.

The decline here carried prices down 1½ below the outside price of the day for May and ¾ below yesterday's close.

The heavy wheat was very dull and very weak. Cash 1 hard sold 90¢ and closed 89¢. No. 1 northern sold 89¢ and closed 88¢. No. 2 closed 82½¢; No. 3 closed 79½¢; rejected, 78¢.

December 1 hard closed 89½¢; No. 1 northern opened 89¢, closed 88½¢. May 1 hard closed 96¢; No. 1 northern opened 95½¢, sold up to 96½¢ and closed off at 95¢.

New York Money and Stocks. NEW YORK, Dec. 11.—Money 2½¢ @ 3 per cent. Stock market opened active but not very strong.

The night's figures were only slightly better. Richmond & Terminal was the special feature of the first hour, advancing 1½ per cent to a heavy selling. The rest of the day there was considerable selling of Missouri Pacific, and under its lead the market declined steadily to midday, when values were off ¼ to 1½ per cent.

The Bridge to Superior. To the Editor of The Herald:

Ripples upon the water's surface indicate the coming breeze. The movement by the citizens of West Duluth and West Superior for a bridge across the waters of St. Louis bay indicates plainly that in due time public opinion, by reason of the rapid growth of Duluth, will be strong on both sides of the bay to overcome opposition. The question of its location is a very important one alike to Duluth and our neighborly city of Superior.

The present plan to locate it at Grassy point lacks the elements of financial success and utility, for the reason that the probable rapid growth of Duluth westward from Twenty-eighth avenue west, located the center of Duluth, not far from Hazelwood Park, when distance and developments are considered.

A bridge thus central combining railway, foot and team transit, crossing here at right angles with the city and bay, would be in its effect, like the link of vitality connecting the Siamese twins, transmitting the life blood of Duluth and Superior's commerce as one, and do as much to build up with rapidity a metropolis at the head of the lakes as any other public project and excelled only by New York and Brooklyn.

Then with our terminal scheme perfected, our rapid transit and rolling mills sparkling with fervent heat and radiating their bands of steel through the Vermilion and Mesaba iron mines for more material, our four mills, making glad the hungry, and rivaling Minneapolis in production of the bread of life, lumber mills, could, 1,000,000 feet per day, as a total, will cause our real estate citizens to climb the "cliffs" to escape the surging mass of humanity that will then crowd the low lands of West Duluth and find transit to and from between Duluth and Superior via such a bridge. The day is rapidly closing when the city of the future, the city of the future will be deemed judicious to guardians of the Gate of the Golden Northwest. These cities will soon be too busy in giving ingress and egress to the kings of commerce and manufactures, as they come to headquarters for renewal of the American One-Track and roll the nonsense of the babes of the woods, who are thus jealous and envious.

## "The Atlanta Campaign."

On tomorrow evening, Saturday, the second entertainment of the series of popular lectures will be given in the temple opera house under the management of the Duluth High School Lecture association. Professor J. F. Downey will on this occasion deliver his largely-admired lecture on "The Atlanta Campaign," a lecture which has become famous whenever and wherever heard.

The St. Paul Pioneer Press, in commenting on "The Atlanta Campaign," says: Professor J. F. Downey delivered his lecture on "The Atlanta Campaign," last evening to a good-sized audience. The professor was himself a participant in the events which he narrated, which fact gave added interest and vividness to his graphic account of the campaign. He traced the general outline of events and filled in the narrative with many incidents, illustrating both the amusing and the terrible phases of war. His manner was animated and pleasing, and the matter of the lecture unusually interesting.

The following program will be given at the Saturday club tomorrow afternoon at the usual hour. Mrs. Wm. L. E. Mahon, leader.

## MILLS FOR SENATOR

The Texas People May Make the Cor-sican Statesman Their Favorite Son.

At a Meeting Yesterday in Austin They Regret With Resolutions His Defeat.

But Hogg and Chilton Want the Plums Themselves and May Do Him Up.

AUSTIN, Texas, Dec. 12.—At a meeting called at the courthouse last night to express the sentiment of the friends of Roger Q. Mills as to his defeat for the speakership at Washington, a resolution offered by District Attorney Burson was adopted to the effect that in his defeat a tried, true and trusted leader of the democratic party had not received the reward his merits demanded, and expressing their sympathy with him on that account. This action was evidently a compromise, as there were many present who desired to endorse Mills for the United States senate in opposition to the majority, who simply desired to take the action stated without expressing their preference as to the United States senator. The friends of Governor Hogg and United States Senator Chilton carried their point by voting down a motion made by Frank Maddox to adjourn and then adopting the resolution recited, which was satisfactory as far as it went, as all desired to express their regret at Mills' defeat. There is talk, however, of calling another meeting Monday to endorse Mills for the senate.

INGALLS HONORED. He is Chosen to Several Offices in the Line of Promotion. ATCHISON, Kas., Dec. 12.—Ex-Senator Ingalls was yesterday elected and accepted the presidency of the commercial exchange; was appointed delegate to the Missouri river improvement convention at Kansas City; was invited to deliver the annual address before the state board of agriculture, and last night was admitted to membership in John A. Martin post, G. A. R. His admission to the grand army post means his subsequent election as delegate to the national encampment.

Fighting in India. LONDON, Dec. 12.—Official dispatches received here last night from Calcutta state that there has been fighting between the British forces and the tribesmen in the vicinity of Gilgit, near the Pamir frontier and not far from the new boundary line recently claimed by Russia. In short, the British forces are now face to face with frontier tribesmen in arms who are claimed to be under Russian protection, and most serious events may result from this clash of arms. Other dispatches just received here from Calcutta, announce that Fort Chitral was captured on December 2, and that seven Sepoys were killed and twenty-five wounded.

Bouncing Bourbons. BALTIMORE, Dec. 12.—The republicans of the state are rejoicing over a decision just reached which places Calvert county in the republican column and ousts several democrats from office. The contested cases were considered by Chief Judge Briscoe and associate Judges Brooke and Crane of the Seventh judicial circuit. The only point considered by the court was whether or not the election held at St. Leonard's, Calvert county, was valid. Judges Brooke and Crane decided that it was. Chief Judge Briscoe dissented.

Bankruptcy in Russia. ST. PETERSBURG, Dec. 12.—Bankruptcy is spreading in this city, and the general condition of trade is deplorable. The same account is received from all parts of Russia. In city and country insolvency is the rule, instead of the exception, and while the respectable poor are becoming mendicants the noble and formerly rich are descending to poverty. The prospect for the remainder of the winter is most gloomy.

Storm on the Continent. HAMBURG, Dec. 12.—A sudden storm, amounting almost to a hurricane, caused considerable loss of life and injury to shipping here yesterday. On the Elbe three persons were lost from a ferry boat by its sudden careening under the force of the blast. An American barge was driven ashore at Nueumunster and five of the crew are said to be missing. The storm also did great damage on land.

Gen. Logan's Son Very Low. YOUNGSTOWN, Ohio, Dec. 12.—J. A. Logan is critically ill. Recently he was attacked with the grip, followed by the formation of an abscess near the base of the brain on the right side. Mrs. Gen. Logan and Dr. Ritchie, a specialist, have been called from Washington, and are expected to arrive tomorrow. His condition tonight is regarded as serious.

They Were Murdered. SPRINGFIELD, Mass., Dec. 12.—Developments in the death of George F. Barr and wife, which took place in the Hotel Warwick on Dec. 2, lead to the belief that they were murdered. A strict investigation will be made.

Gold in the Treasury. WASHINGTON, Dec. 12.—The net gold in the treasury at the close of business yesterday was \$131,155,287, an increase of \$2,000,000 since the first of the month.

Silver Purchases. WASHINGTON, Dec. 12.—The treasury department yesterday purchased 20,000 ounces of silver at 95 1/2 cents per ounce. The offers were 475,000 ounces.

The Ball Tossers. LOUISVILLE, Ky., Dec. 12.—President Phelps, of the American association, has called a special meeting of that organization at Indianapolis on Dec. 15.

Served Three Score and Three. WASHINGTON, Dec. 12.—R. G. Dove, for 63 years continuously a clerk in the treasury department died today.

TELEGRAPHIC BRIEFS.

Nine have died as the result of the recent falling of the wall of the Shepard building in St. Paul.

It is believed that Henry S. Norcross, of Somerville, Mass., is the would-be killer of Russell Sage.

Fire at Eminence, Ky., shortly after midnight destroyed a block of 12 frame buildings, estimated loss, \$25,000, partially covered by insurance.

Every parish in Louisiana has now elected delegates to the democratic state convention. McEnery, the lottery candidate, having the lead of about two in a total of over 600.

A special from Blair, Neb., says Arthur Sloan, who murdered his mother and step-father at Fontanelle three months ago broke jail last night. Armed with a scowling countenance for the country for the holiday recess is taken.

Two United States marshals yesterday brought in from the Creek country three heavily armed Indians named Lesley, Scott and Caesar, jack-members of the famous Capt. Wiley's band of desperadoes, which has terrorized that country for several months.

The directors of the exposition yesterday decided to ask congress to take \$5,000,000 stock in the exposition instead of lending that amount to the fair, with the understanding that the same percentage will be paid back into the federal treasury as is paid to Chicago stockholders.

Dr. T. M. Bowyer, of Bedford City, Va., has filed the papers in an action for divorce from his wife at Madison, S. D. They were married in 1859 at Liberty, Va. The plaintiff was an eminent physician and was known all through Virginia as a successful specialist in female diseases. His wife becoming jealous of their quarreled and this action is the finale.

"THE ATLANTA CAMPAIGN."

Professor Downey Will Lecture on That Theme at Temple Tonight.

Had not the board of education vigorously opposed the purpose of persons who do not care a rap whether there is or not "money" resulting from the Duluth High School Lecture association, Society of Duluth and its splendidly equipped High school building would have become the subject of generous and important contribution from all parts of the country. Look at this picture. A city of less than 50,000 persons liberally supporting a public school lecture course, educating the pupils of its public schools and possibly extending and making the course or series of lectures more valuable.

It should not be forgotten that there is no city in the United States so progressive as to furnish its public school pupils with lectures, delivered by capable men, at a cents a lecture, save Duluth. Duluth has built a magnificent advertisement in its High school building, but had that "ad" been supplementary with the fact that its school pupils can at will absorb the accumulated knowledge of the most distinguished teachers in the country, it would have been forceful. Men who are directly and vitally interested in the industrial development of Duluth will not forget that the city's educational facilities advertise it.

Professor Downey lectures on "Atlanta" at the Temple tonight.

## CAPITAL CULLINGS

Democrats Disappointed That the Committee on Rules was Not Announced Today.

Mileage and Accounts Appointed With Castle Head of the Former.

What Mills Wants and What to do With Him a Hard Problem.

WASHINGTON, Dec. 12.—The absorbing question with politicians here today is the make-up of the house committees. A few members are out of town, but the leaders are all on guard and much pressure is being brought on Speaker Crisp for prominent positions.

The House Session. The house met at 12 noon and after prayer and the announcement of the committees on mileage and accounts adjourned till Wednesday. On accounts: Joseph of Maryland, chairman; Cooper, of Indiana; Dickinson, of Kentucky; Moses, of South Carolina; Seelye, of Iowa; Pearson, of Ohio; Quakerbush, of New York; Griswold, of Pennsylvania, and Cutting, of California.

On mileage, Castle, of Minnesota, chairman; Crawford, of North Carolina; Kendall, of Kentucky; Caldwell, of Ohio, and Flick, of Ohio.

Committee on Rules. The failure of the speaker to announce the house this morning the committee on rules was a disappointment. It was generally supposed last night he would settle the matter. It is understood that Mr. Crisp desires to consider the selection more carefully and wishes to avoid any mistakes. He has had a list before him that contains a half dozen names of democrats, and there are only two to be appointed on this important committee. Many of the leading democrats have been urging the speaker to promptly settle the matter by appointing Messrs. Reed and Burroughs on behalf of the minority. It is thought that if the question of disposing of Mr. Mills were fixed the speaker could go ahead, but Mrs. Mills has been sick and unable to leave her home to state with certainty whether or not he will again be chairman of the ways and means committee. Sentiment generally favors the tendering of the position to the Texas statesman but some of the closest friends of the speaker are still unable to state positively whether Mr. Mills would accept even if the chairmanship was offered him. The whole thing is in a chaotic state and probably not till Tuesday evening will Speaker Crisp be able to make up the rules committee. It is understood that efforts will be made to enact new code of rules for the house before the holiday recess is taken.

Sherman For President. John Sherman is again a full-fledged presidential candidate. He did not intend to be, but the prominence of free coinage in the Ohio campaign has brought him to the front and he can't resist the temptation to try it once more. He thinks financial questions will be as important in this campaign as the tariff and that both issues will be made in the presidential campaign. His advocates who have talked with him say there is no doubt that his mind is again fixed on the presidency.

The Alliance in the Saddle. President L. L. Polk, of the farmer-alliance, in speaking of W. C. McAllister, of Mississippi, says the statements made by McAllister in regard to the falling off in the strength of the alliance membership are untrue; that the alliance is stronger today than ever. He says he has never expressed himself to anyone as convinced that the charges against Macune were true and his relations with Macune are very cordial. Mr. Polk says that all efforts of McAllister and his friends to hold a convention have been miserable failures.

"Hold Your Wheat." ST. PAUL, Dec. 12.—The Weekly State publisher, after "hold your wheat" circular, in which it advises the farmers never to sell wheat when the visible supply is large and increasing, no matter if its price advances to 20 or even 30 cents. When the visible supply is small and declining the farmer is advised to sell a certain portion each month.

New York Bank Statement. NEW YORK, Dec. 12.—Money closed at 2 per cent. There were 121,550 shares sold on the stock exchange during the two hours to noon. The opening was irregular. Prices went gradually lower to the close. The bank statement was as follows:

Reserves, increase	\$1,475,515
Loans, increase	1,171,400
Specie, increase	157,100
Legal tenders, increase	2,083,160
Deposits, increase	2,068,500
Circulation, decrease	3,500

## A NICE LITTLE BUSINESS.

What the New Ruling Has Done for Duluth in One Month.

By concessions of the treasury department through the representations of Collector Johnson, Duluth has obtained the privilege of shipping wheat direct to foreign countries on transportation and exportation entry through New York. The new rule went into effect less than two months ago and in the month of November 350,515 bu of wheat were shipped from here to European countries under it. This wheat was valued at \$18,701, and if the duties had been collected on it they would have brought \$88,637.88 into the government's treasury. The amounts forwarded to the various European ports were as follows: Rotterdam, 32,000 bushels; Liverpool, 125,355; Antwerp, 70,000; Leith, 91,154; London, 3,442.

Robert Elphinstone, of London, England, is registered at the Spalding. He represents the Sanderson Milling company, of Milwaukee, in England, and has come over here to get his bearings and become acquainted with the milling interests. In talking with a Herald reporter he said that London used more of the flour ground from Northwestern wheat than Liverpool and other British commercial centers. In Liverpool the Pacific coast flour was more in demand. The Minneapolis brands have acquired a great reputation in London and the Duluth flour was beginning to do the same.

Mr. Elphinstone looks for a very prosperous year in the American flour trade in the British Isles this year. He is highly pleased with what he has seen on his trip and is of the opinion that England is behind the times in many things, especially in railroad equipment.

MULLIGAN MAY DIE.

In that Case the Call for Ex-Chief Madden Will be Urgent. P. Mulligan, of West Duluth, was taken to St. Mary's hospital this morning. He has a badly broken jaw, received at the hands of West Duluth's old chief of police, T. J. Madden, at the brickyard baigno some 8 or 10 days ago during a drunken row, and as abcesses have formed the doctors consider his case almost hopeless. Madden has skipped out and his whereabouts are unknown.

The girl, the bones of whose face were broken by Madden in the same row, is still confined to her bed and her injuries are severe.

The Weather.  
U. S. WEATHER BUREAU, DULUTH, MINN., Dec.  
12.—The area of high pressure which was over  
the southwest yesterday has moved to over the  
Mississippi valley and dominates the entire  
country.

An area of low pressure is over the extreme  
Northwest, but is as yet unaccompanied by pre-  
cipitation. The temperature is generally high in the  
extreme Northwest where it ranges from 40° to  
60°. The lowest is 25° at North, Minn. The  
highest is 65° at Fort Smith, Ark. Continued fair  
weather will probably prevail until Monday, and  
from the present condition of things it will  
be clear.

The highest temperature here yesterday was  
47°, the lowest last night 32°.

Forecast, Dec. 12.—Local forecast for Duluth  
and vicinity for twenty-four hours ending at 8 a.  
m., Dec. 13: Fair, slightly warming.

## PREACHING IN THE TEMPLE.

The first of the theater church ser-  
vices will be given tomorrow night in  
Temple opera. Rev. Wm. M. Barker of  
St. Paul's episcopal church will preach.  
Good music will be provided, and all are  
welcome without money and without price.

This is a new departure for Duluth,  
but there is much reason to believe it  
will prove highly successful. Ladies of  
the W. C. T. U. who knew of the good  
work done by such means in other cities  
were the originators and are now the  
promoters of the cause. The several  
pastors of the city are expected to join  
hands in the work, and a good plain,  
practical, every day sort of gospel will  
be preached to all who come.

This is an age of brotherhood, and of  
late years sisterhood, too, has begun to  
show its hand in many a noble work. It  
is an age of reciprocity, of commercial  
treaties, of peace and progress. Dueling  
grounds are now a memory, war has  
fallen into disrepute and heroism and  
fame are no longer baptized in blood.  
The old-time hero is a modern outlaw,  
and the folly of kings is tempered by  
the wishes of their people. The greatest  
good of all is the high aim of modern  
statesmanship, and the church cannot  
afford to lag behind. From a growing  
feeling of doubt or dislike, many hesitate  
to enter what to them is only a creed fac-  
tory, but they would gladly hear the  
Word as preached upon the Mount. It  
is to break up this feeling, largely a  
growth of the imagination, and bring the  
gospel closer to the people, that the  
Temple Opera services have been un-  
dertaken. Recognizing the principle that  
"not by bread alone is manhood  
nourished to its supreme estate," but "by  
every word of God have lived and  
flourished the good men and the great,"  
a noble effort will be put forth  
to enlist an interest in divine truth, to  
make earth more happy and heaven  
more popular with the people. In these  
days when Abraham, Isaac and Jacob, if  
among us, would all be on the chain  
gang or in a worse place, there is a  
natural and healthy demand for a differ-  
ent sort of religious food than that they  
fed on. The Temple Opera course, we  
have no doubt, will give the public just  
that thing, with the golden rule as  
dessert for a rich repast. Go and par-  
take thereof.

MR. SUTPHIN NOT A CANDIDATE.  
Ex-Mayor John B. Sutphin whose  
name has been frequently mentioned in  
the local press and on the street of late  
as a probable candidate for the mayoral-  
ty again in the coming election, au-  
thorizes The Herald to state emphati-  
cally that he is not a candidate for the  
office, that he has had all the glory there  
is in it, and that his business interests  
would not permit him to take it even if  
it were tendered him without an  
effort. He is in the  
cold storage business on Lake avenue  
as any one can see by calling at The  
Herald office and reading the large and  
somewhat luminous sign on his ware-  
house. But Mr. Sutphin is alive to the  
interests of the city and thinks it is time  
for those who are not in the arena to sit  
so, that public opinion may be concen-  
trated on some good man for the place.  
Mr. Sutphin is of opinion that the dem-  
ocrats, acting under the advice of State  
Chairman Campbell, will nominate a  
party ticket, and this being the case,  
the republicans will certainly do the  
same, making it a  
straight-away race. Although Mr.  
Sutphin, while mayor, did not draw  
party lines, he feels that if there was ever  
a time in the history of the republican  
party when such a thing should be done,  
it is right now. The indications, there-  
fore, are that the February fray will be a  
lively and joyous one, and that the frost  
will come out and navigation open early.  
Mr. d'Auremont is understood to be a  
sure-enough democratic candidate, but  
it is time that all those of either party  
whose names are being dished with  
should announce their whereabouts in the  
matter.

A MOVEMENT FOR MILLS.  
News from the Texas capital informs  
us that an effort is being made to put  
Roger Q. Mills, of Corsicana, in the  
United States senate, though Governor  
Hogg and his friend, senator-by-ap-  
pointment Chilton, are opposed to such  
an order of things. Senator John H.  
Reagan, of Palestine, whose term would  
have expired in 1893, resigned to take a  
ten-year state appointment on the rail-  
way commission; and when Coke, of  
Waco's term expires in '95, Hogg and

Chilton both hope to be in the house of  
lords. This is the program, but Mills  
has the people with him and may punc-  
tuate their plans. This term will make  
Mills twenty years in congress, and with  
his acknowledged ability he is clearly  
entitled to the senatorial honors. Though  
not peculiarly fitted to be the presiding  
officer of such a tumultuous body as the  
house, he would distinguish himself and  
his state in the senate, ranking among  
its readiest debaters.

## THIRTEEN-TOLD TALES.

The St. Louis Age of Steel for Decem-  
ber contains the following editorial jot-  
ting:

A late telegram from West Superior, Wis.,  
says that a large owner of Mesabie range iron  
hauls from that city and J. P. Doherty are  
negotiating with a Belgian syndicate for the  
sale of extensive tracts of iron land on both  
sides of the boundary. The Belgians are rep-  
resented by Ferdinand von Bissel, consul gen-  
eral of Belgium in Canada, and Girard Mequet.  
A deal is already made, it is said, for 230 acres  
west of Tower, Minn., but the largest share of  
the property is sixty miles from Tower, on the  
Canadian side, which is exceedingly rich in  
antiquarian mineral.

The facts, so far as there are any in  
the above, came from a local letter to  
The Herald, but the owners belong on  
this side of the bay, and then, too, we  
didn't say anything about anti-coke.  
Truly this is an age of steel.

Duluth has been more than favored  
with interesting lectures this winter, and  
that by Judge Morris on "Richmond," at  
Endion baptist church last night, was no  
exception. The scenes of early colonial  
discoveries were shown and deeds of  
heroism recounted, while in and around  
the Confederate capital a thousand  
memories of the war of the Re-  
bellion that were vividly recalled by  
word and picture. The evacuation and  
capture of the capital were thrillingly re-  
lated, and the lecture was an educative  
one for the younger generation. To-  
night the Atlanta campaign will be de-  
scribed by Professor Downey, of the  
State university, or one who was there,  
this being the second in the High school  
course which has already attained a uni-  
versal popularity. Truly with a uni-  
versal lecture course all can be enter-  
tained.

The Ohio republican leaders are some-  
what fearful lest Foraker shall win the  
senatorial prize. Sherman's forces are  
said to be weakening and the situation is  
one of much doubt. The legislature  
will meet next month to solve the prob-  
lem and thereby to determine whether  
Sherman's long, useful and somewhat  
illustrious political career shall end in a  
summary and humiliating dismissal. To  
be defeated by the enemy and succeeded  
by some such man as Thurman would be  
an honor of no small consequence com-  
pared with a victory that lands him in  
the ditch and makes Foraker foreman of  
the gang. And this, too, at a time when  
Sherman is putting forth the tender  
leaves of hope as a presidential candi-  
date.

It is rumored from Rome that Pope  
Leo is passing away and that per-  
haps only a few days of life remain.  
Then would come the interesting ques-  
tion of his successor, and America, it is  
said, will put in a bid for Cardinal Gib-  
bons, of Baltimore. He is one of the  
ablest, most cultured and most distin-  
guished men in or out of the church, at  
home or abroad, and in view of the mar-  
velous growth, great wealth and future  
prospects of the church in America,  
such a choice would seem wise and fair,  
but it is hardly probable a college of  
European cardinals will choose an Ameri-  
can as the successor of Leo.

Within the past month orders for over  
25,000 freight cars have been given to  
the various shops of the country, which  
is said to be one-fourth of a good year's  
output. The big crops not yet half  
hailed, are the immediate cause of this  
activity in the equipment department,  
and the increased earnings of a single  
season will repay the expense. The  
fortunes made by lake vessels this fall  
have also stimulated work in the ship-  
yards, and 1892 promises to find the  
country ready to take care of itself.

Senator Gorman has been reported by  
Washington correspondents as per-  
sonally directing Mr. Crisp's campaign for  
the speakership, but now the senator  
says he was not at any of the headquar-  
ters, did not commune with any of the  
candidates, and had nothing to do with  
the fight. Senator Hill and the Tam-  
many tiger have also been accused but  
the tiger thinks she can prove an alibi.

The Red River Valley Old Settlers'  
association was organized this week at  
Grand Forks. The members are mostly  
men who have been a generation in this  
garden of the Northwest. We love to  
see the old folks get together and thrum  
affection's golden harp. They can't live  
but one life, and in the words of the  
humorist philosopher, they'll be a long  
time dead.

Our friend Chas. M. Cushman, of  
Oneco, wants to bridge the St. Louis at  
that point and make Siamese Towns of  
Duluth and Superior. But if he got the  
right-of-way for a bridge it would take a  
long while to tell which should be Chang  
and which Eng. Still we all want the  
bridge.

The familiar face of our friend, Hon.  
Halvor Steenerson, with his glasses on,  
appears in the current number of the  
Northwest Magazine. It is hardly neces-  
sary to say that the portrait is not quite  
so large as life.

To expedite matters and make things uni-  
form, Mr. Crisp might give the republicans a  
little committee all to themselves.

The rural New Englander now declares he  
never before saw a tale of such a horrible crime.

The man whose life is a burden must have  
filled it up with sin.

Now come the season when the bivalves are  
in the shell.

## VIRGINIA'S CROWN, RICHMOND.

Hon. Page Morris Entertains a Crowd-  
ed House at Endion Church.

As was anticipated, Judge Morris'  
lecture on "Richmond" drew a large  
gathering to Endion church last evening.  
The lecturer started upon the journey  
by water to Richmond. It is impossible  
to do justice to the excellent lecture by  
any hurried report. The judge pleas-  
antly twitted Bostonians as thinking that  
Boston was about all there is in the  
world, but assured them that Virginia  
had a lead even of Plymouth Rock. He  
described very vividly incidents of the  
late civil war and eloquently paid tribute  
to the shrines of some of the grand lead-  
ers—Washington, Patrick Henry, Lee,  
Jackson and others.

By the aid of the stereopticon he ex-  
hibited views of the various points of in-  
terest about Richmond, including Libby  
prison, now removed to Chi-  
cago, the capital building, the  
church where Jefferson Davis  
was worshipped, the Confederate White  
House, the statues of Washington,  
Stonewall Jackson, Jefferson, Patrick  
Henry, and other patriots, and the  
church, still in use, in which Henry  
made his famous liberty or death speech.  
The capture, evacuation and burning of  
Richmond as witnessed by himself, then  
a lad of 12 years, was vividly portrayed.  
The judge from a local letter to  
The Herald, but the owners belong on  
this side of the bay, and then, too, we  
didn't say anything about anti-coke.  
Truly this is an age of steel.

The Duluth & Iron Range road is ask-  
ing for bids from contractors for build-  
ing its new ore docks at Two Harbors,  
into which nearly 3000 piles and 2,500,  
000 feet of lumber will enter, not to  
speak of considerable quantities of iron  
and steel. The estimated cost of the  
docks will be \$150,000 to \$175,000. The  
bids will be opened on the 25th.

## THE WORD OF A WOMAN.

Mrs. Gilman, of Boston, Told the Truth  
and Nothing but the Truth.

It seems that an interview with Mary  
E. Gilman, recently published by the  
Boston Globe, has made Mrs. Gilman no  
little trouble.

But she is apparently glad to reiterate  
all she has said, most emphatically.  
Now she writes this letter and it is inter-  
esting:

To the Editor of the Globe.—The in-  
terview you printed, where my state-  
ment was made public, has created quite a  
stir. Everybody wanted to know if it  
was true. I could make but one answer,  
yes.

One person, I will not call him a man,  
came to me and asked what the report-  
er's name was. I told him that I didn't  
ask. Then this person remarked that  
he supposed I made \$25 on the state-  
ment.

My answer was:  
"Yes, 20 times that amount in health  
and strength. For too times that sum I  
would not be back where I was before I  
used 'Paine's celery compound.'"

What you stated was true, every word,  
and nothing but the truth.

Yours respectfully,  
MARY E. GILMAN,  
s Byron St., Boston square.

For the benefit of those who did not  
see Mrs. Gilman's statement, I enclose  
the Globe, it is printed herewith:

"For years I have been a great suffer-  
er, so that I could not stand or walk  
without intense agony, my veins swell-  
ing out like great whip cords. I have  
always worn a rubber bandage, but when  
I took it off to relieve my limbs the tor-  
ture was almost unbearable.

"I tried everything, but could get no  
relief until I tried 'Paine's celery com-  
pound.' That entirely cured me some  
months ago, and since then I have had  
no return of the pain or swelling, can  
walk and stand as well as any one, and  
have worn no bandage or support. I  
hope other sufferers will hear of this  
compound and gain relief."

Dr. A. W. K. Newton, one of the physi-  
cians who examined her, told a Globe  
reporter that this woman was undoubt-  
edly completely cured of her trouble.

The doctor also spoke freely in favor of  
Paine's celery compound, saying that he  
often prescribed the remedy, and found  
it of great value in rheumatism, blood  
diseases, and all weakened or nervous  
conditions.

## Safe Investments

LISTEN TO REASON AND MAKE  
MONEY.

Splendid Opportunities.

The Way to Get a Start in Life  
And an Easy Road to  
Travel.

It is a fact that many people  
of moderate means have bought  
and paid for lots in Crosley Park,  
in the last two years, and have  
made money.

Every person who bought a lot  
on the installment plan has made  
his payments without any spe-  
cial trouble or inconvenience to  
himself, and every such person  
is from \$100 to \$300 better off  
for doing so. Many people have  
got their start in life in this wa-  
however small that start may  
be. The payments were light and  
easy, and were made with money  
that would have been frittered  
away had they not been put into  
this property. Then, what is still  
better, every lot has made from  
25 to 100 per cent advance, and  
that is all clear gain, and is a  
saving of that amount of hard  
labor on the part of many of our  
patrons.

There is no better or cheaper  
property today at the Head or  
the Lake, and none that will  
make a better percentage of ad-  
vance in the next two years than  
Crosley Park lots. Many who  
were skeptical two years ago are  
thoroughly convinced now. It is  
standard property, and will con-  
tinue to advance in price for  
years to come.

Real Estate is the safest pos-  
sible investment, as everyone  
knows, and when you can get a  
PERFECTLY safe investment  
that will make such large profits  
and can pay for them at your  
ease, and in such small pay-  
ments that you don't feel them,  
isn't it an opportunity? Of  
course it is, and you may not see  
such chances again to get a start  
in life if you were to live a hun-  
dred years. Splendid Duluth  
property like this will not al-  
ways be cheap, and you will  
soon find that there is none with-  
in the reach of poor people or  
persons of moderate means.

While you are in health, and  
can save money, why not put it  
into good property like this?

Store Open Evening Till 8 O'clock; Saturday Evenings Till 10:30 P. M. Until Christmas.

**WE MEAN OUR STORE.** The mouth of the public is always open when there is anything good to eat, and judging from the many pocket books being opened these days in our store, we must have much that our patrons consider good to wear and handsome useful and acceptable for Holiday Gifts. We are in order for the Christmas climax of trade. In the following, we are more than ever prepared. House Coats, Mackintoshes, Umbrellas, Gloves, Fur Caps, Suspenders, Handkerchiefs, Neckwear. We shall give till Christmas, a special lot of 50 cent Neckwear, the orthodox 50 cent grade at 25 cents each. A lot of the richest and choicest, and newest Silks, not bad at \$1, for 50 cents each. We have them all at prices you will like—prices exceptional.

Peculiar advertising methods—our own. We have goods to sell and use other means besides newspapers to let you know it. A boy with a beautiful Suit or Overcoat that cost him a dollar or two less than a purchase elsewhere and a pair of splendid Club Skates that doesn't cost him anything, is an advertisement for us. So is a Watch. So is a Clock.

## SPRINGER TO LEAD.

Speaker Crisp Will Make the Butte-naire Statesman Chairman of Ways and Means.

Which Also Means That he Will be the Leader on the Floor of the House.

The Position of Mills on the Party's Tariff Policy Renders Him Ineligible.

WASHINGTON, Dec. 14.—Great interest is taken in the outcome of the committee appointments, and it is now practically settled that Mills will not be tendered the ways and means committee, but that Springer, of Illinois, will have the coveted place. The house does not meet until Wednesday and the official announcement will not be made until then.

### THE TUG OF WAR.

Teams of Heavyweight Pullers Are So Far Named.  
For the tug war contests that will commence Wednesday night the following teams have already been selected:

Native American team: W. A. Thompson Jr., 145 pounds; L. M. Larson, 140; G. Anderson, 165; G. Mitchell, 180; Walter H. Lutes, 175. Swedish: Gust. Peterson, 215; John Martin, 210; A. Johnson, 200; S. Sandberg, 240; E. Dahlberg, 215; G. Norman, 190. Scotch: J. McKay, 220; John Buchanan, 190; W. McKay, 20; Malcolm McCullough, 214; Bob Rogers, 240. French: Joe Lacourriere, 278; P. Lacourriere, 240; C. Archambault, 220; P. Duby, 223; K. Bauchemin, 210; J. B. Turcotte, 185. Canadian: M. O'Donald, 185; A. Simons, 225; J. Campbell, 190; R. K. McKenzie, 180; J. Barkly, 240; T. Gallagher, 245. Irish: James Harney, 242; Thos. Harney, 210; Cornelius Holland, 204; John Lynch, 190; Thomas Hayden, 235; J. J. Slattery, 190; W. O'Neil, 230. Norwegian: Olaf Dahl, 240; A. Dahl, 200; W. Weike, 238; Ed Landerno, 233; G. H. Tufte, 210.

Some considerable interest is attached to the contest and the various teams are doing a good deal of hustling.

### TELEGRAPH BRIEFS.

Mme. Modjeska, who is stopping at the Continental hotel, Philadelphia, is seriously ill. There are thousands of cases of grip in St. Louis and it is epidemic in many other places.

Martin Williams, an old newspaper reporter in the Northwest, was buried at Minneapolis yesterday. He was suffering from pneumonia.

Lieutenant Governor Schultz, of Manitoba, is seriously ill and is not expected to recover. He is one of the pioneers of Manitoba and was appointed governor in 1887.

Hank Lovett and two of his companions, all notorious cattle thieves, were hanged at the gallows of the State of Texas yesterday. Their bodies were left on the gallows.

Representative Forney, of Alabama, has declined the chairmanship of the appropriation committee of the house, because of ill health and advancing years.

Mrs. Irwin McDowell, widow of the late Maj. Gen. McDowell, who commanded the federal forces in the first battle of Bull Run, died in New York City yesterday.

Cotton exports from the United States during November aggregated 1,073,349 bales, valued at \$18,007,075, against 885,672 bales valued at \$14,595,098 in November, 1890.

Dr. Ignatius F. Horstman, who has for some time past been chancellor of the archdiocese of Philadelphia, has been chosen bishop of the catholic diocese of Cleveland to succeed Bishop Gilmore.

Senor Fortella, in compliance with the request of the government, has resigned the governorship of the state of Rio Janeiro. He will be succeeded by Admiral Silva.

Liverpool people are agitated over the formation of a trust or combination to control the output, and price of bread. A statement of the Liverpool Chamber of Commerce, and a counter combination of consumers for the protection of their interests is mooted.

Mrs. A. H. Master Frank Packard, Mrs. T. D. Hatch and her son were found in their house at East Coast, Fla., Saturday, with their throats cut, probably by a mad dog.

They had come from the North a week ago to spend the winter. Dr. James L. Massie was arrested yesterday in Wallingford, Ky., for the murder of J. L. Kenakee at Owensboro, Ky., Oct. 11. Both men were prominent in Owen county. Kenakee, it is claimed, circulated a report that Dr. Massie was intimate with his 18-year-old niece and Massie shot him on sight.

Exports of lumber from the United States for November are valued at \$24,585,980 against \$7,682,004 for the same month last year. Breadstuffs exports for the 11 months of the current year have aggregated in value \$10,107,707, against \$12,071,160 during the corresponding period of the preceding year.

General Joseph T. Torrence, representing the Chicago Elevated Terminal Railway company, has purchased for a sum approximating \$5,000,000, the right-of-way and all the real estate holdings of the Atchison, Topeka & Santa Fe road within that city.

At Poughkeepsie, N. Y., Judge Barnard decided the "marked ballot" cases in favor of the republican candidates for state senator and county treasurer. As Mr. Deen who is declared elected, is dead, this will necessitate the holding of another election for the office in Columbia, Dutchess and Putnam counties.

The republican caucus committee has placed Senator Hoar at the head of the judiciary, the position held by ex-Senator Edmunds. Privileges and elections were given to Mr. Teller, while the Northwest is recognized by the selection of Mr. Casey, of North Dakota, as chairman of the committee of railroads, succeeding Mr. Mitchell who was given the committee on claims.

One of the most cheering incidents in connection with the welfare of Ireland is the selection by the McCarthyites of Sir Charles Gavan Duffy for the parliamentary division of Monaghan. As prime minister of Victoria he acquired a reputation in affairs beyond what any other prominent Irish nationalist can lay claim to.

Diamonds Till You Can't Rest. \$20,000 worth of diamonds of all sizes selected with great care, and with special reference to purity of color, shape, brilliancy and general perfection, at prices that will surprise you when quality is considered. You will miss it if you don't see us before making your selection. No need of going out of town, with such a stock to select from, as we can and will make it an object to you to buy of us.

## MERRIAM FOR VICE

The Boom for Billy Spreading Throughout Our Much Loved Land.

He is Said to Have the Support of the Leading Citizens of the State.

Will Have the Votes of Minnesota, Montana and Dakotas for a Start.

CHICAGO, Dec. 14.—Prominent republican politicians of Minnesota who have passed through Chicago within the last few days declare that the Northwest intends to make a strong bid for the second place on the republican national ticket. The man upon whom they are practically united is Governor W. R. Merriam, of Minnesota. It is claimed in his behalf that he is very popular in Minnesota, the convention city, as well as throughout the state, and that the local feeling cannot fail to make itself felt in the deliberations of the convention. This is aside from his actual qualifications for the vice presidency, which are set out at length and with a good deal of enthusiasm.

His administration as governor is said to be without a flaw, and the refunding of the state debt is pointed to as one of his achievements which entitles him to great credit. Governor Merriam is a man of considerable wealth and will be backed in the convention by such men as Thomas Lowry, Col. C. H. Graves, Mayor Sutphin, of Duluth; Col. Mullen, of Wabasha, and many other leading republicans. He will also without doubt be heartily supported by all the local republican papers. His supporters claim that he can have the votes of Montana and the two Dakotas, besides those of Minnesota to start with, and that his vote will increase as the contest goes on.

McKinley is Sick. CANTON, Ohio, Dec. 14.—Governor-elect McKinley, of Ohio, is suffering from an attack of the grip. Dr. Phillips, who is in attendance, states that his patient will not be able to attend to his duties this week. He added: "He is a sick man, although not at present bedfast. He has a severe pain at the base of the brain and shows his sickness."

No Trichinae in Ours. BERLIN, Dec. 14.—In the reichstag today Herr Bötticher, minister of the interior, had to answer a question put in regard to the trichinae found in pork imported from the United States since the bill providing for the inspection of such pork had become a law.

Charley Foster Better. WASHINGTON, Dec. 14.—Secretary Foster is growing stronger. He was dressed and sat up today. He will go to Fort Monroe when strong enough to travel.

THE RED WING. H. B. Walmesley Says He Has Capital to Build the Entire Line. H. B. Walmesley, who, it was claimed by the News, had skipped out of town in October with a well-known young private school master, was seen on our streets today with a big roll of maps under his arm. "Hello," said the reporter, "how comes it that a man who has eloped with a young woman is back in town?"

Of course, Mr. Walmesley was surprised and wanted to know what the reporter meant. He was told just what had been published about him. Although surprised Mr. Walmesley did not rave at the reporter, neither did he ask for two columns of space in the Herald in which to hurl anathemas back at the News. He simply said: "Do you know who wrote the article?" On being answered in the negative he inquired for the names of the managing editor and city editor.

"In two or three days," said Mr. Walmesley, "I shall give you some important news regarding the building of that part of the Duluth, Red Wing & Southern between Duluth and the Soo railroad. I have been in all the principal cities of the East during the past three months and have succeeded in getting backing to build the road. I shall remain in Duluth now."

## EXTENDING THE DRIVE.

The Park Board Anxious to Lengthen the Terrace Driveway.

"The board," said Secretary H. C. Helm, of the park commission, "is exceedingly anxious to extend the terrace driveway westward as far as Bay View Heights at West Duluth. It is willing to improve the drive provided it can obtain a 100-foot right-of-way from the property owners without cost. The expense that would be incurred in making the improvement would be about \$25,000. The people at West Duluth should recognize the importance of the park system to them and it is in the manner I have indicated. There is no doubt that the value of their lands would be greatly enhanced thereby."

"We would be willing to use the established streets wherever practicable. Collingwood avenue would undoubtedly be a good thoroughfare over which to connect our system with Oneonta and Central avenue and one or two other connections could be utilized at West Duluth. The work could be prosecuted next spring and finished before the summer was over."

The drive has already been opened to the ravine that heads above Collingwood avenue and is in such condition that the connection can be made by a careful driver. It is, however, in no condition for use. The part of the drive between Merchants Park and the ravine back of Hazlewood is fully as beautiful, if not more so, than any part of the now completed drive. From Hazlewood to Bay View it is also said to be very picturesque.

To Adjust Fire Losses. Messrs. Wales and De Laittre, of the Pioneer Fuel company, arrived in town this morning accompanied by three insurance men, who will adjust the recent losses by the dock fire. The insurance men are C. W. Kibbee, of the Aetna; A. J. Trumbull, of the Philadelphia Fire Association, and H. P. Hubbell, of the Springfield Fire and Marine. The measurements will be taken today, but the settlement will not be made until they return to Minneapolis.

Moving to New Quarters. The Chapin-Wells Hardware company is moving into its new building on Fifth avenue west. It will continue, for a long time at least, the present retail store on West Superior street. The new building is the largest wholesale house in Duluth and gives the company some 70,000 square feet of floor space. It is fixing up the building nicely.

Completing the Last Viaduct Approach. The last approach to the viaduct on Sixth avenue west is nearly finished, and connection will be made at Railroad street in a few days. This will give the establishments on lower Sixth avenue a much better connection with up town than they have ever had, and adds to the value of the viaduct most materially.

Making Slate Brick. Officers of the State Brick company tell The Herald that they have been turning out 10,000 brick a day for a week and that they will begin burning a good-sized kiln in a few days. They are well pleased with the outlook and expect a very large trade as soon as the brick are introduced.

Crookston Protest. At a late meeting of the Crookston city council a resolution adopted by the President of the United States was unanimously adopted, protesting against the proposed national park in Northern Minnesota.

THE MARKETS. There is a Dull and Steady Market for Wheat Locally Today.

The wheat opens here with a very lower, and brings unsatisfactory bids. Reports are that general rains throughout the West and Southwest melted snow leaving wheat fields uncovered. The last hour was extremely dull. The close was steady and firm with buyers at the opening figures.

## OF LOCAL POLITICS.

The Political Arena Warmly Stirred by Mr. Sutphin's Announcement of Absolute Declination.

F. B. Daugherty Looked Upon as a Likely and Probable Mayoralty Candidate Under Certain Circumstances.

The Field Canvassed With Diligence Steadily by Those Who Want Party Lines and Those Who Do Not.

More politics has been discussed since ex-Mayor J. B. Sutphin came out in Saturday's Herald with the statement that he was not in the field for the mayoralty than in the whole of the past month. Everybody believes what Mr. Sutphin says and everybody says he is very sensible in not running for the mayoralty, as he has had the position once and there could be no new honor in it to him, while he would be certain to sacrifice considerable in his private business. The men who have been opposed to Sutphin seem to be of the opinion that he will be in the race for congressional honors when the proper time comes.

One of the members of the republican city committee has given it out that the committee will meet between Christmas and New Year's to decide on a date for the convention. The situation at present is the funniest ever seen here just before a city election. The republicans do not stand in with the present administration and want the administration to show its hand, if it has any, as well as the democrats, while the people who have backed up the administration want the other people to do the same.

There is considerable talk around town today that Senator Daugherty will be put before the republican convention next month. Mr. Daugherty, when asked a few days ago about running for mayor, passed the matter off very cleverly, but where there is considerable smoke there is generally some fire. It is argued that many democrats would throw their influence to Mr. Daugherty as they have done for J. B. Sutphin, though the democratic party lines are to be drawn closely this year and may cut a gash in the votes of many usually independent voters.

The Colored Republican club meet in its hall over Epling's grocery Wednesday night.

Alex. Fraser for mayor is the talk of some on the streets today.

A special line of gold and silver headed umbrellas, suitable for Christmas presents, at Andrew Jackson's, 106 W. Sup. st.

The holiday trade at the Duluth Book and Paper company's store is fairly under way. Their line of beautiful gift books, Bibles, prayer books, standard works, leather goods, albums, and dainty works of art of all descriptions, is the finest that has ever been shown in Duluth. Remember our No. 108 West Superior street.

Good loans wanted, rates 6, 7, 8 per cent. Frederick P. Jones, 510 and 511 Lyceum bldg.

Holiday Presents May be selected at rock bottom prices at the old stand of THE EAGLE CLOTHING CO., 48 West Superior street.

Besides being dropped from the roll of World's fair employees, Prof. A. de Guerville, who spoke in Duluth a while ago, has been struck by a Milwaukee artist to compel payment for printing some of the views which de Guerville intended to take abroad with him, as he said, when he went to Europe to lecture for the fair and America. It will be remembered that he secured money from public spirited men in many towns—among them Duluth—to aid views of those places to the collection which he would exhibit at lectures.

## THE BALL TOSSERS

The Managers Meet to Plan and Prepare for the Diamond Campaign of Ninety-Two.

Some are For and Some are Against the Twelve Club Plan, But it Looks Like a Winner.

It Will be a Big Galaxy With Lots of Bright Stars, and They Will Shine for All.

INDIANAPOLIS, Dec. 15.—Indianapolis is full of baseball presidents, managers, directors and lesser lights, and if things move as smoothly as expected, it will be empty tomorrow. This morning President Nick Young, of the league and President Phelps, of the association, came and with their arrival the business began. This morning the directors of the association met at the club room in the Bates house just after the arrival of President Von der Horst, of Baltimore. The early Chicago train brought in President Williams of the association club with 12 of the stockholders of that organization and inaugurated a vigorous campaign against the 12-club plan. President Williams says that he and his colleagues will fight resolutely until the end. President Evans, of Milwaukee, is keeping silent as in fact nearly all the others are as to details. President Byrne, of Brooklyn, says the league is a unit on the 12-club plan and that conferences with association officers indicate an agreement on the matter. Owing to the late arrival of the train bringing in the Boston, New York, Baltimore, Washington and Pittsburgh delegations, the formal meetings were postponed until the afternoon. A more bewildering condition of affairs never existed than that concerning the meetings, to be held here to-night, but is willing to retire and get back her money and the league people know what the terms of settlement are. Both sides claim President Von der Horst. The formation of the new Western circuit forces either Columbus or Louisville out. Some say both and insert Indianapolis. It is said Brush and Byrne favor the latter city.

## CHINA NOT IN IT.

Says Her People Cannot Make a National Exhibit at Fair.

New York, Dec. 15.—A special to the Herald from Washington says the Chinese empire has officially notified the state department that it will take no part in the World's fair. The emperor's grounds for declining to send an exhibit are that the United States has not invited against the citizens of the empire and that the Chinese could not come to the exposition without being put in the humiliating attitude of needing a special passport to be granted by special act of congress. No objection is raised to Chinese merchants and their wares. The United States participating in the exposition, but China as a country refuses to take any part whatever in the fair. The result of the China negotiations which were carried on through Minister Denby, have been wired to Director General Davis.

To be a Princess.  
PARIS, Dec. 15.—French detectives, who were ordered to search for a beautiful girl, aged 17, who has been missing from her home for some time, have discovered that a Belgian prince was the cause of her disappearance. It seems the prince became infatuated with the girl, who resided with her parents at the hotel where he was stopping. The prince made her a number of valuable presents and finally got the girl to leave her home and take up her quarters with him in another part of the city. The parents have threatened to prosecute the prince for abduction and say he will marry the girl.

Big Insurance Deal.  
New York, Dec. 15.—Phil B. Armstrong gave a dinner at 75 West 42nd street last evening to celebrate a surprise he had for them which was that he had insured the business of the Mutual Fire Insurance company, the Fire association, the Armstrong Fire Insurance company, which was the head, in the Lancashire Insurance company, of Manchester, Eng., a few hours before. The business of the three companies which has been re-insured aggregates \$200,000,000.

New Confidence in Brazil.  
RIO JANEIRO, Dec. 15.—The panic on the bourse is at an end and confidence has been restored. The troubles over the Leopoldina railroad have also been terminated successfully and apologies have been tendered by the government to Chilean Minister Keupfer because he happened to be assailed by footpads. The police at Cardozo grossly insulted two Spaniards and an Italian. Reparation has been demanded by the respective consuls of the victims.

An Anti-Trust Test Case.  
CONCORD, N. H., Dec. 15.—A test case is to be brought against the American Bobbin, Spool and Shuttle company by ex-Congressman Moore, of Nashua, N. H., who will ask the grand jury of the United States court to grant indictments against the officers of the combination for the violation of the anti-trust law. The company is capitalized for \$2,000,000 and was organized last January.

Young Logan Will Recover.  
YOUNGSTOWN, Ohio, Dec. 15.—John A. Logan, Jr., continues to improve. It is believed that the critical point has passed and Dr. Ritchie left for Washington last night.

## TOLD BY HIS TEETH.

The Head of the Dead Bomb-Thrower Fully Identified.

New York, Dec. 15.—Dr. Edward Dunham today made an examination of the teeth and jaws in the head of the dead dynamiter. The result was as follows: There are nine fillings in the teeth. The last wisdom tooth on the right upper jaw is missing. There was a depression where it had been. The two upper molars were filled with gold, also the first and second molars on the same side. A small piece of the surface of left canine tooth on the upper jaw was broken by his signature, a slight depression, which may have been caused by the explosion. The second bicuspid of the left upper jaw was filled with gold, also the first and second molars on the same side. The teeth were all in position in the lower jaw. The first molar of the right lower jaw was filled with gold. The second molar was very black. There was a black spot in the middle of the crown of the third molar on the lower right jaw. The doctor was unable to determine whether this was a filling or decay. All the teeth were in position in the left lower jaw.

This examination tallies with the description of Norcross' teeth as given by his dentist, Dr. Coggins, of Boston, in a dispatch from that city last night. This makes the identification of the bomb thrower as Henry L. Norcross a certainty.

## Mowat for Reciprocity.

OTTAWA, Ont., Dec. 15.—Oliver Mowat, premier of Ontario, has written an open letter to Alexander Mackenzie, the veteran ex-premier of the Dominion. Mr. Mowat declares that he is in favor of unrestricted reciprocity, and believes that it can be brought about without imperiling the loyalty of Canada to Great Britain. He ridicules the annexation movement and declares that great as Canada is, the time for forming into an independent nation has not yet arrived.

## San Francisco, Dec. 15.

Peter Jackson has received from the National Sporting club the articles of agreement for his fight with Frank Slavin. Within a few hours of the receipt, Peter had fixed his quarters under that of his coming opponent and forwarded them by mail to London. They agree to fight 20 rounds with four-ounce gloves at catch weights for a purse of \$10,000. The contest is to take place at the National Sporting club on Monday, May 30, 1892.

## Cyrus Field and His Son.

NEW YORK, Dec. 15.—Cyrus W. Field was notified of his son's arrest last evening and the shock was a terrible one. He had just begun to rally from the first sickness, and it is feared that this will be a relapse, which Mr. Field's condition would almost end his life. His physicians were hastily summoned and remained a long time at the house. When he left he refused to talk of Mr. Field's condition.

## The Telegraphers' Strike.

HOUSTON, Tex., Dec. 15.—It appears that there is trouble brewing here and elsewhere on account of the discharge at Deming, N. M., of two operators who refused to handle Southern Pacific business over their wires. A telegram was received yesterday notifying the men that all operators on the Atlantic & Pacific had quit work. Fears are entertained by the telegraphers that the operators may be drawn into the strike.

## Gladstone off at Last.

LONDON, Dec. 15.—Mr. and Mrs. Gladstone, accompanied by Mr. John Morley, Mr. George Armitstead and Mr. Lady Mary, left for the Continent yesterday morning for Biarritz. Notwithstanding that it was raining hard a large crowd gathered to see the ex-premier off, and a warm ovation was tendered him all along the route.

## Corn and Sugar Duties.

LONDON, Dec. 15.—The Berlin correspondent of the Standard says that the German government has decided to raise the duty on American corn and German sugar does not need parliamentary sanction as they were affected by simple exchange of notes. Negotiations are being held in view of England's joining the Zollverein.

## Settled by the Code.

PARIS, Dec. 15.—M. Chas. Soller and Col. Andruzzi fought a duel this morning at Meudon. M. Soller was pinked by the Col. and received only a slight wound, while Col. Andruzzi sustained a severe wound in the breast. The quarrel originated in a discussion on colonial politics.

## Struck This Morning.

SAN FRANCISCO, Dec. 15.—Last night an order was issued by Mr. Rumsey, acting deputy grand chief of the Order of Railway Telegraphers, calling on the members of the organization on the entire Southern Pacific system of the railroad to leave their keys this morning.

## His Parents Say So.

NEW YORK, Dec. 15.—The parents of Henry L. Norcross the Boston not broker, identified the bomb thrower's head as that of their son at 10 o'clock this morning. The mother, Mrs. Norcross, gave the identification and accepted it as complete.

A Government Engineer Drops Dead.  
CINCINNATI, Dec. 15.—Wm. E. Merrill, United States engineer in charge of the Ohio river and all its navigable tributaries, dropped dead last night on a train near Edgemoor, Ill., while going to Shawneetown on business.

## Emin Pasha Hard Pressed.

PARIS, Dec. 15.—A dispatch from Zanzibar states that the position of Emin Pasha, who was last heard from at Wadelia, is precarious and that he has several bloody conflicts with the tribes of the lake districts.

## McKinley Improving.

CANTON, Ohio, Dec. 15.—Governor-elect McKinley continues to improve, but will not be able to attend to any business for a week.

WASHINGTON, Dec. 15.—Only the senate was in session today, in which body many bills were introduced. The house will meet tomorrow noon, at which time the announcement of many of the committees will be made. Speaker Crisp, though confined to his room today, is busily at work on the Chinese puzzle. Having so much raw material, his task is an almost overwhelming one, and it is hardly probable the work will be completed before the holiday recess.

## The Senate Today.

In the senate today the report of the geodetic survey was presented. The vice president appointed Senator Morrill to fill a vacancy. Mr. Proctor introduced two bills to increase the efficiency of the army and to regulate promotions. Mr. Culion introduced a bill to amend the interstate commerce law; also to provide for some kind of automatic car coupled from all connections with the national capital. But such is not the case. The old stages have come out of their holes like turtles to bask if possible in the sunshine, no matter how soon it may be cloudy again, and they have not that sleek, well-fed appearance which was their's before they were annulled from all connection with the national capital. They were fat and happy in a certain room. They have a wistful, eager look as to face, while as to clothes they are clad in hand-me-downs of the certain age instead of the tailor made garments which they sported but a brief 21 months ago. Their general appearance is that of a Congress of the Missouri state penitentiary. It was pure and to the point of a sharp November day. A bunch of warmly clad and well fed negro convicts were sunning themselves against the wall near the entrance. They were fat and happy. The great gate was swung open, in marched a bunch of new convicts. They were clothed in rags. They were dirty and looked as if they were very near that country known as Starvation Land. The shivers as the wind blew through what had once been their clothes. On the whole they were a pretty miserable lot. The fat, warmly clad negroes inspected them closely. Finally the fattest and most contented looking of them turned to the others and said: "Must be hard times on the outside." So, judging from the appearance which they present as they endeavor to once more establish an entente cordiale with the treasury. The last two years must have been hard times for a pretty large contingent of democrats who have been on the outside since they lost their jobs by the election of a republican house.

## The Old Gang Back Again.

There is a very goodly number of very goodly people under the several officers of the house, all of which will be filled by the end of the session. The demand for them is naturally greater than the supply. But the curious thing about it is that nearly every democrat who went out two years ago to make room for a republican is on hand ready in his turn to succeed a republican, and these solicited gentlemen come from all parts of the Union. One would have thought that they would have succeeded in two years in establishing themselves in some business that would have made them proof against the desire to again fill a pleasant, easy, but very uncertain position at the capital. But such is not the case. The old stages have come out of their holes like turtles to bask if possible in the sunshine, no matter how soon it may be cloudy again, and they have not that sleek, well-fed appearance which was their's before they were annulled from all connection with the national capital. They were fat and happy in a certain room. They have a wistful, eager look as to face, while as to clothes they are clad in hand-me-downs of the certain age instead of the tailor made garments which they sported but a brief 21 months ago. Their general appearance is that of a Congress of the Missouri state penitentiary. It was pure and to the point of a sharp November day. A bunch of warmly clad and well fed negro convicts were sunning themselves against the wall near the entrance. They were fat and happy. The great gate was swung open, in marched a bunch of new convicts. They were clothed in rags. They were dirty and looked as if they were very near that country known as Starvation Land. The shivers as the wind blew through what had once been their clothes. On the whole they were a pretty miserable lot. The fat, warmly clad negroes inspected them closely. Finally the fattest and most contented looking of them turned to the others and said: "Must be hard times on the outside." So, judging from the appearance which they present as they endeavor to once more establish an entente cordiale with the treasury. The last two years must have been hard times for a pretty large contingent of democrats who have been on the outside since they lost their jobs by the election of a republican house.

## Crisp and Mills.

Speaker Crisp was confined to his room by a slight cold today but was able to continue his work on the committee. Mr. Mills is also laid up with a cold but is reported slightly better and the rumor that he has pneumonia is unfounded.

## Clarkson's Committee.

MINNEAPOLIS, Dec. 15.—The subcommittee of the national republican executive committee arrived in the city this morning from Chicago. There were in the party Chairman J. S. Clarkson, of Iowa, Sergeant-at-arms C. F. Meek, of New York, A. L. Conger, of Akron, Ohio, H. C. Payne, of Milwaukee, and Powell Clayton, of Eureka Springs, Arkansas.

## Quay Not for Re-election.

NEW YORK, Dec. 15.—A special to the Sun from Pittsburgh says Senator Quay told four newspapermen, in an interview last night, that he was not a candidate for re-election.

## He Was a Newspaper Man.

MEMPHIS, Tenn., Dec. 15.—M. J. Beckwith, at one time a prominent Kansas City newspaper man, cashed a forged check here yesterday for \$1250 and left for parts unknown. The check was drawn through a Little Rock bank on the National Bank of Commerce of St. Louis.

Headquarters for musical boxes at Ferd L. Engberg's music store.

## Diamonds Till You Can't Rest.

## OLD BOREAS BLOWS.

Colorado and New Mexico Have a Little Blizzard.

PUEBLO, Col., Dec. 15.—The severest storm ever known here raged six hours yesterday. Wires of all kinds are down and traffic is generally suspended. A regular blizzard is blowing. Two houses have been blown down but no one was hurt. Reports from other Colorado points and Baton, N. M., state that business is almost entirely suspended on account of the blizzard. Runners from the ranges in Montana report cattle standing half covered with snow and thousands dying from cold and starvation.

## Davitt's Address.

DUBLIN, Dec. 15.—Mr. Michael Davitt today issued an address to the electors of Waterford in his contest for that seat in parliament, left vacant by the death of Richard Power. Mr. Davitt says he and his colleagues will continue to be the deadly foes of landlordism and that they will strive to change the land laws so as to give the best protection and scope to agricultural interests. He also pledges himself and his colleagues to cooperate with the representatives of industrial democracy to further all legislation tending to secure for the trading classes the fullest protection of their rights and a speedy amelioration of their grievances. In conclusion, Mr. Davitt says that he will support any measure curtailing to reasonable limits the hours of labor.

## Railway Employees Meet.

ST. LOUIS, Dec. 15.—Representatives of all the different railway organizations throughout the country, with the exception of the Brotherhood of Locomotive Firemen, are in secret session here today. A resolution was offered in which it stated that it was the sense of the council that a circular letter be issued to all railway organizations asking that their officers attend a meeting to be held within the next 60 days to decide upon the federation of all railway organizations throughout the United States and Canada.

## Chileans Blame Egan.

LONDON, Dec. 15.—The Times' Santiago correspondent says that the entire Chilean press blames Minister Egan for the tone of President Harrison's message toward that country, and not a single newspaper attacks the President. They say that Egan was asked whether he would telegraph the circular letter prepared by the Chilean foreign minister and that the official making the inquiry understood Mr. Egan to say he would.

## To Reinstatement the Strikers.

EL PASO, Tex., Dec. 15.—District Organizer N. H. Kirsch, of the order of Railway Telegraphers, is here, and Grand Chief Ramsay, from Vinton, Ia., will arrive today to begin negotiations for the reinstatement of the striking operators. All the different railway organizations of the Southern Pacific held a joint mass meeting last night to discuss the situation.

## Carnegie Denies.

NEW YORK, Dec. 15.—Andrew Carnegie says there is no truth in the report that the 3500 men employed in the Homestead mills at Pittsburgh intend to go out on a strike soon. He says the firm has a three-years' contract with the men which does not expire until July 1 next, and he does not see how the men can strike.

## Ran Through a Depot.

LONDON, Dec. 15.—A serious railroad accident occurred in Lancashire, 10 miles from Manchester, on the Lancashire and Yorkshire railroad today. A freight train over ran the steps and burst into the wall of the freight depot. That building thereupon collapsed, burying several people in the ruins. One dead body has already been extricated from the ruins.

## Fire at Litchfield.

LITCHFIELD, Minn., Dec. 15.—A fire this morning about 2:30 burned the building occupied by the Chicago Bargain house and the hardware store of McLaughlin Bros., together with both stocks. Loss, \$16,500; partially insured.

## Biggest Cotton Planter Dead.

VIKESBURG, Miss., Dec. 15.—John P. Richardson, the largest cotton planter in the world, died on the Epix plantation in East Carroll parish, La., yesterday. He owned fifteen plantations in the states of Louisiana and Mississippi.

## The San Paulo Rebellion.

LONDON, Dec. 15.—A dispatch from Rio Janeiro says that the revolt in Sao Paulo has been suppressed. The insurgents succeeded in expelling the local officers, but they are to be reinstated in most cases by the government troops.

## The Graves Trial.

DENVER, Col., Dec. 15.—The trial of Dr. Graves on the charge of murdering Mrs. Baraby by giving her poison, drags from day to day, attracting considerable interest.

## THE CAUSE CELEBRE

Interminable Length and Heavy Cost of the New Famous Section Thirty Case in the Land Office.

Candidates for the Several Aldermanic Positions Bob Up in the Shuffle for Election Next February.

All But One of the Six Who Go Out of Office Willing and Possibly Able to Get Back.

The celebrated section 30 case doesn't seem much nearer a settlement than it was months ago. It has already consumed, in the present hearing, about 75 days, and the expense of this all, outside the many costly expert witnesses who have testified on the several sides, is variously estimated at from \$37,000 to \$50,000, or from \$500 to \$700 a day. In a few days the hearing will be adjourned until after the holidays, when it will be taken up again for another long and weary discussion.

The instructions of the commissioner of the general land office were to throw the case open to the future, outside the many costly expert witnesses who have testified on the several sides, is variously estimated at from \$37,000 to \$50,000, or from \$500 to \$700 a day. In a few days the hearing will be adjourned until after the holidays, when it will be taken up again for another long and weary discussion.

ALDERMANIC CANDIDATES.

Men Who Will Run and Men Who May Run in February.

There are already several men who are avowed candidates for aldermanic positions, or whose friends declare there is not much doubt about their desire to run. The six aldermen who will remain in office for another year are Messrs. Sorenson, Long, N. F. Hugo, Weiss, Cox and Kennedy, representing the six wards in their order. The men whose terms expire this winter are Messrs. Dingwall, Lemieux, Ash, T. W. Hugo, Nelson and Perry. Every one of them will undoubtedly try to get there, with the exception of T. W. Hugo, who, it is claimed, doesn't want anything but the honor of being mayor. It seems to be the general opinion that every one of the five men who are talked of as going to run again can succeed more easily this winter than two years ago.

Alex Crawford, a republican, whose common sense, business ability and popularity are proverbial, would undoubtedly like to run for the seat from the Fourth ward, provided he obtained support in convention. W. T. Thompson, of the News, a democrat, is talked of for the same position, while Attorney C. F. Hopkins will probably be put on the democratic ticket for the Sixth ward. A. F. Rudolph, the alliance man, may be induced to run against Lemieux in the Second.

Circulation Tells the Story.

This is distinctly the advertising season of the year, and the columns of the newspapers are the natural medium through which the merchants communicate to their patrons information which should be of mutual advantage. Obviously the paper which has the largest circulation among all classes of buyers is the most valuable to both buyer and seller, and this statement gently leads us to the fact that the circulation of The Herald is the largest of any paper published in Duluth.

George H. Walsh, railroad commissioner of North Dakota will visit Superior in January to complete the Superior-Dakota elevator scheme. Five North Dakota applications have been made for membership on the Superior board of trade.

The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street: 12 m., 34°; 3 p. m., 35°; 6 p. m., 33°; 9 p. m., 33°; 7 a. m., 31°; 9 a. m., 32°; 12 m., 30°; Maximum, 35°; minimum, 30°; daily range, 5°.

It is stated that the new route of the Red Wing road to St. Paul will give it a less distance between Duluth and the capital than any other road by 20 miles. It claims a line 135 miles long, against 155 by the St. Paul & Duluth, 166 by the Omaha and 180 by the Eastern. Other railway people deny this statement.

## PERSONAL.

## TUG OF WAR.

An Interesting and Exciting Contest to Continue Eight Nights.

The international tug of war opens tomorrow night at Normanna hall and excitement among the different nations runs high. There will be two Scotch teams in the fray, one the Highlanders captained by Chas. McGillis, and the Scotch by W. McKay. Professor Moon, the piper, will play the bagpipes and coach the Scotch, while Professor McLean will do likewise for the Highlanders. The betting is slightly in favor of the Scotch team with Norway, a good second. The other teams may fool them, however. All the captains will meet at the Merchants hotel tonight at 8 o'clock to arrange the position of the teams to pull on the opening night. It will continue eight nights. Frank E. Wyman, Dr. A. E. Walker, P. Larke and A. A. Nicholson will be the judges and Simon Clark referee.
